R. L. Tompkins and Will Dill Are
Elected Directors to Repre-
sent Stockholders Here

A committee started out this morning to raise five thousand dollars more money to buy a site and build a factory for the Modern Appliance company which will be moved here from Chicago, following a meeting last night, at which two directors were elected to represent the interests of the Rushville stockholders and at which it was determined that more money would be needed to place the factory on a solid basis at the very start.

R. L. Tompkins and Will Dill were elected directors to look after the interests of the local stockholders. They were nominated and elected unanimously. The board of directors will be composed of five men, the other three being Erling Falk, J. Vincent Murray and A. Duane Brewer of Chicago.

Stockholders present last night signed their stock pledges and designated what kind of stock they wished. The big majority of them took common stock, very few of them selecting preferred stock. The stockholders also signed articles by which power will be given to the directors to incorporate under the laws of Indiana.

The company will be incorporated at \$75,000, two thirds of which will be common stock and one-third preferred. The articles of incorporation will be filed just as soon as enough money is assured to build the factory building.

Every day that the subscription of the additional five thousand dollars is delayed, just that much longer will the actual location of the factory be delayed, it was stated by one of the stockholders last night. It is the earnest hope of all the stockholders that it will be possible to begin setting machinery within thirty days.

After a careful survey of the local situation, stockholders have arrived at the conclusion that a new building is the only solution of the problem. There are no buildings here not in use which would be suitable for the factory. Even if some make-shift affair could be arranged, which it is certain can not be, it would not be fair to the factory, many argue, to give it a bad start.

The argument is that no handicap should be put in the way of the factory to keep it from accomplishing all that it can when conditions are right. The factory should have a suitable location and good working conditions, as well as ample capital, which is already provided. But if some of the money already subscribed for stock were invested in a factory site and building, the working capital would be reduced so that the company would not be getting an equal chance to prove its worth.

The only alternative is to raise five thousand dollars more by stock sales to provide a home for the factory. The opinion was expressed last night that this can be accomplished. Those who subscribe this

Document Recites Patriotic Efforts
of the Organization in Other
Wars

The Womans Relief Corps, at a meeting yesterday, pledged anew its allegiance to the flag and tendered its services in any capacity for the protection of the flag, in the resolutions which were adopted as follows:

Fifty-six years ago today our flag was fired upon at Fort Sumpter, and that was the beginning of the Civil War, when the North and the South waged its fearful battles which were for the equalization of human rights, and which were the primary reason for the formation of our order, as it is today and has been for thirty years, a pioneer in charitable and patriotic work. The right triumphed as it should and our flag floated in peace until 1898 when again human rights were trampled on and human lives were sacrificed by a foreign nation when the Maine was sunk. At the call for troops a company was formed here, and we as an order did what we could on their going away, and when peace was restored welcomed

TALKS TO CINCINNATI CROWDS ABOUT LOOP

Pres. Charles L. Henry of I. & C.
Tells of Advantages That Will
Accrue to The City

WILL MAKE EXTENSION SURE

Charles L. Henry, president of the Indianapolis & Cincinnati Traction company, is in Cincinnati working in the interests of the loop ordinance, by which interurban lines will be able to get into the city, and on which the people of Cincinnati will vote next Tuesday. President Henry is interested because the extension of the I. & C. from this city to Cincinnati depends on whether the loop is built.

Cincinnati newspapers say that the Citizens' Rapid Transit Commission has obtained the consent of Mr. Henry to speak to Cincinnati audiences about the advantages that will accrue to Cincinnati with the building of the rapid transit loop.

The Commercial Tribune is in error when it explains that the extension will be made from Connersville because it is already assured that the extension will go from here. The Tribune says that on the first day the loop is operated, interurban cars from Indiana will make their first appearance on the streets of Cincinnati. President Henry has assured them of that.

BULGARIA BREAKS WITH U. S.

(By United Press.)

Washington, April 12.—Bulgaria's reported action in breaking relations with the United States was received here in official circles this afternoon with no surprise. At the state department, however, it was said no word of the rupture had come.

Frankfort—Headquarters of Ambulance company No. 1 will probably be transferred to another city.

ALL EMPLOYEES ARE URGED TO ATTEND

Every Concern in City This Morning
Receives Letter Announcing
Flag-Raising Sunday

ELABORATE PLANS ARE MADE

Joint Ceremony Will be Held on
Platform in Julian Street Near
Glove Company Building

The elaborate plans being made for the triple flag-raising ceremony at the Rushville Glove company's factory Sunday afternoon at two-thirty o'clock indicate that it will be probably the most widely attended patriotic meetings held here.

A platform will be raised in Julian street near the glove company's building and an extensive program will be followed. The program is now being prepared and probably will not be announced before Saturday. It is already assured that the Odd Fellows band will play.

The flag poles have been provided and were being erected today in preparation for the flag-raising Sunday. All of the poles are gas pipe. The two placed on the power house and car barns today are 45 feet long. The one erected on the glove company building is twenty-five feet long.

Not only the employees of the glove company, but those of the I. & C. car barns and the I. & C. power house will participate. A flag will be purchased by the employees of each place and raised over the respective buildings, but the ceremony will be held together.

Every concern in the city this morning received a letter urging that their employees be invited to the flag-raising. The letter follows:

At the request of the employees of the undersigned we will thank you to invite, through your usual notification channels, your officers, employees and their families to be present and assist in the triple flag raising to be held at our plants on Sunday, April 15th.

An appropriate program is being arranged. Music will be given by the Odd Fellows Band and well known speakers will address you. Final arrangements and program

FIRE DESTROYS THE MULLINS SHOP

Loss to Building and Contents in
Early Morning Blaze is Es-
timated at \$1,000

VERY LITTLE INSURANCE

Smouldering Metal Which Was Tem-
pered Last Night May Have
Been the Cause

Fire of unknown origin at five o'clock this morning destroyed the blacksmith shop of James J. Mullins, 118 South Perkins street, and for a time threatened the surrounding buildings. The loss to Mr. Mullins is estimated between \$400 and \$500 without any insurance. The building, which was practically destroyed, was owned by Miss Laura Trussler. There was \$300 insurance on the building, but whether sufficient to cover the loss is not known. The entire loss is estimated at about \$1,000.

The fire apparently started near the center of the building along the north wall and then spread to the entire structure. The blaze was discovered by Fred Brown, who resides in the Mauzy flat. He called the fire department and after two lines of hose had been laid the alarm was turned in.

When the place was closed last night there was no fire left and the origin will probably remain a mystery. Some were of the opinion that the building had been set on fire but there was no proof of this and not much reason to suspect it. Mr. Mullins stated that yesterday he had tempered some metal and it is probable that the fire was caused by the metal smouldering throughout the night until it finally broke out this morning.

The fire department did heroic work to save the building occupied by Wade Sherman's carriage shop, two doors south. An old barn is between the Mullins shop and that of Sherman and the department prevented the barn from burning. This in turn prevented the flames from reaching the Sherman building.

The telephone company suffered a slight loss when a cable running through the alley next to the black-

Wooden Boats To Bridge Sea

One Will be Found Every Three Miles
Across Atlantic, in Effort to
Smash U-Boat Blockade.

SERVE AS FOOD TRANSPORTS

Plans For Construction of Three
Thousand of Them Completed
and Approved by President.

BY ROBERT J. BENDER
(U. S. Staff Correspondent.)

Washington, April 12.—To smash the German U-boat blockade, the United States will virtually bridge the Atlantic. Plans for the construction of 3,000 small wooden boats have been completed and approved by the president.

The boats will be used to transport food and supplies to the entente ports.

The government shipping board has sent out a call for 150,000 lumbermen and woodworkers to start work at once. Congress has authorized \$50,000,000 to start the program and will be asked for \$300,000,000 more.

The first one thousand ships are to be completed in eighteen months and immediately thereafter two thousand more will be ordered. It is the purpose to run them in such a fashion that they will construct a veritable bridge across the sea, one boat every three miles. The boats will be equipped with wireless and anti-submarine guns.

GERMANY MAKING PEACE OVERTURES

Apparently Positive Reports Reach
Copenhagen That She Seeks to
Avoid War With U. S.

UNOFFICIAL OFFERS MADE

BY ARTHUR E. MANN
(U. S. Staff Correspondent.)

Copenhagen, April 12.—Apparently positive reports were received here today that Germany was making peace overtures to the United States. It was understood that these negotiations sought peace with the United States.

No further details were available here. It is understood that Secretary of State Lansing has already received the overtures through unofficial sources. The proposition as received here is for the United States to send Col. House to The Hague for a secret unofficial conference.

Germany's terms were not specified in the report but it was hinted there was no change in the position as outlined by the German ambassador in Washington in December.

Peace Overtures From Germany.

(By United Press.)

Washington, April 12.—The state department declared today that it has received no peace overtures from Germany and has no reason to believe any is enroute and added that this government is not ready for any such overtures and the state department inferred that the administration's view is against a separate peace.

London, April 12.—Dispatches today from Switzerland state that Bulgarian delegates were in Switzerland endeavoring to reach a separate peace with the entente.

Washington, April 12.—America and Japan, it was indicated this afternoon, will join hands in suppressing any submarine activity or raiders in the Pacific.

Secretary McAdoo Outlines Adminis-
tration's Scheme to Raise Two
Billion Dollars.

(By United Press.)

Washington, April 12.—The first week of the war ended today with the United States government still actively engaged in raising a great army but with little accomplished.

Increasing opposition to the conscription idea has caused a growing feeling that a compromise may be necessary whereby the volunteer system will be given a trial before actual drafts are made. The president, however, continues firm in his determination to have the general army staff bill passed.

Meantime the war department is trying to stimulate volunteering for the national guard and issued a statement today declaring that the purpose was to recruit an army up to 108 companies with the expectation of 150 later.

Under yesterday's order eliminating from the guard all men with dependents, it is estimated the present strength of the guard will be reduced ten to fifteen per cent.

Committees in both branches of congress were in conference on war measures and peace propagandists were at work particularly in the house judiciary committee, which is considering five bills.

The house military committee will report out the general staff army bill early next week, probably in time to give the volunteer system try-out before drafting the 500,000 men becomes necessary.

Secretary McAdoo conferred with the senate finance committee and outlined the administration's view of raising two billion dollars in general taxation.

New York, April 12.—Indictment against seven news print manufacturers were returned this afternoon by the special federal grand jury which has been investigating the alleged conspiracies to boost prices in violation of the Sherman anti-trust law.

News-Value of Advertising

Readers of The Daily Republican who make a practice of studying the advertising can testify to the remarkable amount of reliable information they acquire.

It is a form of education which many readers follow quite unconsciously—but none the less to distinct advantage.

A period of fifteen minutes a day devoted to reading of advertisements is as surely productive of results as is the same amount of time devoted to reading in Dr. Eliot's famous five feet of books—and perhaps the results are more immediately practical and helpful.

Not to take advantage of advertising is to neglect a plain duty to oneself.

NO MILITIA AT BATESVILLE

August A. Hackman Writes Here to Deny Rumors Being Circulated

August A. Hackman of Batesville, brother of H. G. Hackman of this city, has written the local man that there is no truth in the rumors which have been circulated here that a company of state militia is stationed at Batesville and Oldenburg to watch the German sympathizers and keep order. Mr. Hackman said in his letter that if need be a company of militia could be formed in the community to fight the Germans because all of the people there were patriotic and loyal. He declared that great injustice had been done the people there by the false stories.

Amusements

The attraction at the Gem-tonight will be William Fox's "Romeo and Juliet," featuring Theda Bara, as "Juliet." Tomorrow night "Dulcies Adventure" will be shown featuring little Mary Miles Minter. In "Dulcies Adventure" is afforded an excellent opportunity to display that sweet and pathetic child character which has done so much towards making this charming little star the most popular ingenue now appearing in the pictures. The play abounds in tense situations and pretty heart interest.

The Princess offers the next chapter of "Patria" for the first picture of tonight's program. This is the Mrs. Vernon Castle serial, which has attracted wide attention. In addition to this a Pathe Weekly and a comedy "Luke Wins Ye Lady Fair" will be shown. Friday Pauline Fredrick will be seen in the drama "The Spider." It is said to be a wonderful picture. In addition a reel of Burton Holmes travel pictures will be shown.

The Lyric will show the three act drama "The Power of Mind" for the first picture of tonight's program. Edward Coxen and an all-star cast are featured. The second is a comedy entitled "The Cave Man." Billy Van Deusen is featured. Tomorrow Edith Sterling will be seen in the drama "The Stain in the Blood."

TO DISCUSS FOOD PROBLEMS

(By United Press.)

Indianapolis, Ind., April 12.—Governor Goodrich today called a conference of leading members of the legislature to meet tomorrow at the capital to consider plans for financing increased food movement started throughout the state. It was stated that the calling of a special session of the legislature would be discussed.

No statement could be procured from the governor on the calling of the special session of the legislature, but it is known that both democratic and republican leaders have discussed such a move with the executive. Should a special session be called financial matters would be the main things to be considered.

By a strange coincidence both secured their early training in studio work at the same studios. Later they left to accept an engagement with another company. Mr. Myles left this company as did Miss Sterling some time later. Two days after Mr. Myles was engaged by the signal studios, Miss Sterling also put her signature to

But neither knew of the presence of the other at the Los Angeles studios until they were selected to play as co-stars in "The Web of Grafters," which was the first of the Mutual Masterpictures produced by the Signal-Mutual company. Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and druggists here are kept busy dispensing freezeone, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezeone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

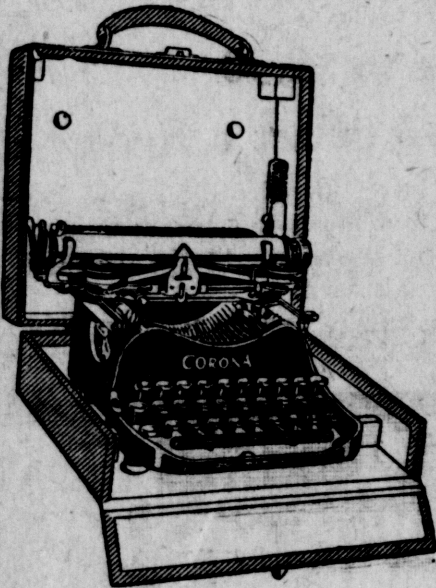

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

For tyrants and their brooding ills,
And dauntless will

To keep fat slaves from golden gyves
And helot lives;

Among these freemen-warriors, you
Stand as a captain, firm and true.

Plant, Plant, Plant

Too much can not be said—though millions upon millions of words have been printed already—about the necessity for Americans to till the waste places this spring and summer so that famine may not stalk abroad in the land next winter. None of us knows what the next twelve months may bring. But we do know that we can raise vegetables in the land which has been put here for our use and that we can store up a supply in preparation for any eventualities.

The situation is so acute that a National Emergency Food Garden commission has been formed by a volunteer movement, which is working through the press of the United States to urge upon every person the necessity of planting something

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water, Peel Off! Shriveled, Loosen and Peel Off!
Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from that instant—then it loosens and falls right off. There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of knives that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and scissors that draw blood. Use "Gets-It" more digging or cutting.
"Gets-It" is sold everywhere, in a bottle or sent on receipt of price by Dr. Lawrence & Co., Chicago, Ill.

Sold in Rushville and recommended by the town's best doctors, Dr. J. H. Miller and Frank E. Walcott

this spring. P. S. Riedale, secretary of the commission, writes that the primary mission of the commission is to raise the patriotic impulses of the people to a point where it will be realized that some method must be adopted by the city man and woman, boy and girl, to help themselves in the matter of providing food for the individual household.

America, as a land of peace and plenty may in the near future be transformed into a land of conflict and want. The food supply of the country, the department of agriculture officials aver, is not over abundant, and since this country is involved in the world war, it is not unlikely that the food problem will become acute.

In the United States there has been a marked falling off in the production of foodstuffs from 1899 to 1916. When figured down to the amount produced for each person, the decreases are: meats, 11.5 per cent, cereals, 8.4, and potatoes, 3 per cent. These figures, however, do not include the short production of 1916.

The actual shortage in the production of food in proportion to population indicates that it will be some time before prices of farm products fall to the low level of recent years.

In the face therefore of present conditions every additional food garden planted will serve to relieve the food stress of the world, and will at the same time enable the restoration of the rightful balance between the money supply and the food supply, thus reducing the high cost of living. Also there is no way in which the city population could possibly evidence their patriotism than following the injunction of the National Emergency Food Garden Commission to plant a home food garden at once. With a million additional vegetable gardens thriving in the various cities and villages of the country the food problem will not be so serious an issue. Soon it may be imperative that the government require the railroads to devote their facilities to troop and military supply movements. In this event the city people either must depend up in back yard gardens for their fresh vegetables or suffer for want of them. It will be a physically impossible feat for the railroads to transport a very considerable amount of farm produce to the market centers of the country, in the fact of a national military movement. It will be an impossible condition that confronts the people when it is realized that the railroads are the very arteries of the nation, and that without their operation stagnation of all business would cease.

More evidence is piling up that Senator James E. Watson made a decided impression on the people of the country with his interview recently, which was published widely by the metropolitan press. The Daily Republican has mentioned several large newspapers in various parts of the country which commented favorably on his views. Now comes the Charleston News and Courier, which says that the Indiana senator "seems to think more like a statesman than like a middle-west politician of the regular variety and who seems to have the faculty of talking so that people will both listen to him and understand him."

At eleven minutes after eleven o'clock at night the United States senate took the vote which added the eleventh nation to the list of those fighting Germany. The Kokomo Tribune says the experts in cabalistics may now proceed to tell us what this means, but if the Tribune will tell us what cabalistics is—or are—the other would be simple indeed.

"Uneasy lies the head that wears a crown," and from recent reports some heads are not very easy after the crown has been removed.

St. Patrick banished the snakes from Ireland and was canonized. Nicholas banished the "snakes" from Russia and was ostracized. Something wrong somewhere.

Farmers are complaining that their hens refuse to set, but this simply emphasizes the good sense of the "biddies" in refusing to spoil high priced eggs.

Munition Maker, Who Opposes War, Called to the Colors For Duty Abroad.

ADMITTED MAKING PROFIT

London, April 12.—S. H. Thomas an Australian, living in London, will be called to the colors May 6, for garrison duty abroad, despite his conscientious scruples against killing Germans.

As manager of a metal company Thomas sold tons of material for the munition factories, but his conscience didn't bother him.

"I admit taking a profit from munitions which are intended to kill people" he said, "but I entered the business as a boy when there was no war."

That ruined his chances before the military tribunal.

Conscientious objectors whose scruples against killing are recognized by the military authorities are no longer compelled to work as direct war auxiliaries. But if they are called up they must participate in some work of national importance.

STAR PLAYERS OFTEN IN FIGHTS

Temperment and Temper Seems to go Hand in Hand in Baseball—Cobb Frequent Offender

LATEST SCRAP WITH HERZOG

Headless Efforts Often results From Unchecked Spirit in Order to Win.

(U. P. Staff Correspondent.)
BY H. C. HAMILTON.

New York, April 12.—Ty Cobb's outburst for freedom in spikes, perpetrated in Dallas, Tex., with Charley Herzog the goat is sufficient to lead any one to wonder why it is that nearly every great star in baseball has participated in many bursts of temper, many times ending in fist exhibitions.

Cobb, himself, has had innumerable episodes of temper, and many times they have developed into blows. The occasion of the butcher nearly put Ty out of baseball for a season, and there was a time when he clambered into a grandstand to take up the issue with a spectator.

Herzog is a scrappy individual and a star. Heinie Zimmerman is always eager to argue with some one—and he is a star. Joe Wood has had his fist experiences. John McGraw was a fighter and a fast one. Johnny Evers has encountered trouble in his baseball, days more times than any one ever has set down on paper.

It appears that the unchecked spirit that carries men to heights in baseball effort is just as likely to lead them to heedless effort when an argument presents itself. That probably explains why Herzog and Cobb mixed.

Cobb has confessed he intentionally spiked the Giants' second sacker. There undoubtedly was a reason for that, and when Herzog grappled with the Georgian and they went to the Texas sand in a rough-and-tumble exhibition, it was evident the fires had been smouldering.

It was a queer thing that each participant in this melee was playing under orders of two of baseball's scrappiest managers. John McGraw, himself, probably has gone through more pugilistic capers on the diamond than any man in the game, and Hugh Jennings was a baseball player of some ability with his fists. Both were members of the old Baltimore Orioles, a club that learned fighting almost as soon as it did baseball.

TO DIVIDE CROP WORK INTO FIVE SECTIONS

G. I. Christie, State Food Director, Will Appoint Separate Head For Each Department

WILL LINE UP WAR STRENGTH

(By United Press.)

Indianapolis, Ind., April 12.—Further organization of workers to bring Indiana's resources in every line up to full war strength, was planned today by G. I. Christie of Purdue university, newly appointed state food director.

Under the arrangement of the state administration so far as perfected, Christie's work will be divided into five departments and a separate head will be named for each section of the work. These are:

Agriculture—Including field crops, stock, horses, poultry, garden produce and fertilizers.

Industries—Implements, packing, canning, evaporating, alcohol distilling, munitions, automobiles, aeroplanes, clothing and shoes.

Transportation—Railroads, inter-urban, telegraph, telephone, highways, express and truck lines.

Finance—Banks, loan companies, rural credits, and public assistance.

Home Guard—Red cross, salvage corps, charities and public health.

2 CARTHAGE BOYS ENLIST

Earl Hill and Henry White at Fort Thomas, Ky., Training

Two Carthage boys—Earl Hill and Henry White—have enlisted in the army and are now at Fort Thomas, Ky., receiving training. The boys enlisted at the Indianapolis recruiting station and after being accepted were sent to Fort Thomas. Hill is a son of Mr. and Mrs. Rice C. Hill and will be remembered here by many high school students as being the star of the Carthage high school basketball team two seasons ago. White is a nephew of Mrs. Harvey Jessup of Carthage.

JEALOUSLY STIRS OLD CRACKER BOX WHITTILERS.

(By United Press.)

Chanute, Kan., April 12.—Professional jealousy has stirred the rivalries of the two acknowledged cracker-box champion whittlers of Kansas. It came about thus:

A. B. Baker, an old soldier of this city, has been a famous whittler all his life, but until the past year had never had occasion to prove his right to the state championship. It was his by default, according to his enemies; by consent, according to his friends.

But last year another old soldier whittler, John Parker, came to Chanute. He believed he was more adept at the art than Baker and did not hesitate to say so. Furthermore, he whittled out several unique articles to prove his contention.

Old Man Baker snorted in disdain and set about to show the outsider a few wrinkles in what could be done with a pocket knife and a piece of wood. He scorned such soft wood as pine and used oak or walnut when he could get it. The contest now is nearing the close of its first year.

Baker's friends now claim the championship for him from the fact that from a thick walnut board he has whittled out a picture frame made of 164 small pieces and joined together so adeptly that no one can tell where the joints are made. Baker and his friends, as you might say, pause for reply.

Madison, Ind., April 12.—Suit of the state against Joseph M. Cravens for condemnation of 265 owned by Cravens, lying west of the Southeastern Indiana hospital for Insane, opened in circuit court here today. The legislature appropriated \$54,000 for enlarging the farm but Cravens refused to sell his property.

A marriage license was issued yesterday afternoon to Hugh Birt and Mrs. Amanda Birt of Posey township. They were divorced in December 1916.

WESTERN SUFFS TO INVADE SOUTH

National Woman's Party is Ready to Start its "Drive" on Dixie—Go in Automobiles.

Southern Women Taking Keen Interest in Campaign Which Starts at Charlotte.

(By United Press.)

Washington, April 12.—To further their plans for a political alliance between the South and the West, the National Woman's Party is all ready for the start of its "Dixie Drive." A small army of women in automobiles, led by Miss Maud Younger of California, will tour the solid south to spread the gospel of the party.

The states to be visited include Virginia, North and South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, Arkansas, Kentucky, West Virginia and Maryland.

Six organizers already have preceded the invaders into the south. These include Vivian Pierce of California, Beulah Amidon of North Dakota, Mrs. St. Clair Thompson of North Carolina, Doris Stevens of Nebraska, Mabel Vernon of Delaware and Luch Branham of Maryland.

Mass meetings will be held in all towns and cities of importance and state conventions will be held in all the capitals.

The Southern women are taking a keen interest in the campaign. The first town to be invaded Monday will be Charlotte, N. C., where a council of war will be held.

Barber Expires at Home in Carthage of Double Pneumonia

William Minor, Jr., age thirty years, died yesterday at his home in Carthage of double pneumonia after a short illness. He was a barber by trade and a few years ago was employed in the Norris and Flint shop here. He is survived by the widow; his parents, Mr. and Mrs. William Minor, Sr., of Carthage, and three sisters, Mrs. Jap Parrish and Mrs. Tom Silers of Carthage and Mrs. Tom Bradbourn of Knightstown. The funeral will be held at the Fletcher M. E. church in Carthage Friday afternoon at two o'clock and burial will take place in the Carthage cemetery.

URNS TO MOVIE HOUSE

(By United Press.)

London, April 12.—Spring has come to England, and the young man's fancy, whether he wears khaki or not, is turning, after its annual custom, to thoughts of love.

There's a certain movie house out in Golder's Green that is daily becoming more popular. Downstairs it's just an ordinary cinema, but up in the balcony the kind genie who looks after boys and girls in the Springtime has arranged things differently.

There are no single seats in the gallery. They're all built double; i. e., with just room for two in each seat. The company is mixed, generally pretty closely. And it costs sixpence extra to sit in the back row.

AN OMEN OF WAR.

Whittier, Calif., April 12.—It is recalled here today that Louis Fordenanza on Feb. 1, declared that when a coal black pigeon perched on his barn it would be an omen of war. He says it came and foretold the war in 1914 and again when Italy plunged in in 1915. He says the bird has again appeared recently.

Prof. Masters lectured to the high school this morning in the Graham Annex auditorium on "Westminster Abbey."

Display of Spring Wash Fabrics

Every woman will be delighted to view this showing, for what woman is there who is not now thinking of wash frocks, for the Spring and Summer days are a'coming?

And can you remember ever having seen such wonderfully colored materials as are to be found for this season? Another surprising thing is that these pretty wash materials are marked at **EXTREMELY MODERATE COSTS**. Any number of women have asked to be shown a certain design and then look at our sales person in amazement when the small cost was mentioned. Some went so far as to say, "Why, these look like silk. I expected they would cost double that price."

BEAUTIFUL NEW SUITINGS

In some cases the colorings and patterns are daring in design, but in every case the quality of the materials is so rich that you can almost picture what a wonderfully pretty suit, dress or skirt they will make. You'll find all the popular colors of the season.

Feather Dusters.

Heaven is man's idea of life after death. The feather duster is a turkey's idea of life after Thanksgiving.

There has always been something pathetic about it to us. Particularly in that bilious and melancholy period after we have given a little thanks and taken too many helpings. We always think:

"Well, the turk is dead and gone; the gobbler, as you might say, gobbled; but his soul and his feathers go marching on." It sort of fills us with sadness.

But the feather duster, like a good many old established institutions, is passing. Patent mops and extra efficient rags of one sort and another are pushing it to the ash can. Dust is being clipped upon the obliterated without warning.

But the duster in its day did yeoman service. Long may it wave.

SOCIETY NEWS

Church Societies, Parties, Weddings, Dances, Literary and Musical Organizations, Sewing Circles, Card Clubs and Many Other Things of Interest to Women.

There will be a formal dance at the Social club next Tuesday night.

The club supper, which was to have been held at the Social Club next Tuesday evening, has been postponed until a later date.

Mrs. H. H. Elliot entertained the Rev. and Mrs. J. T. Aiken, Dr. and Mrs. J. T. Paxton, Mrs. Ryburn and Miss Sadie Williams, last evening, with a splendid six o'clock dinner.

Mrs. Mary L. Neutzenheller entertained a number of her friends last evening, with a 500 party at her home in North Morgan street. After the spirited rounds at cards, an elegant salad course was served.

Two tables of bridge were entertained by Mrs. O. M. Dale yesterday afternoon, at her home in North Main street. Spring flowers were used as a decoration for the occasion and light refreshments were served at the conclusion of the afternoon.

A regular business meeting of the B. Y. C. D. class of the First Baptist church was held at the home of Mrs. S. G. Huntington last evening, with twenty members in attendance. Mrs. S. G. Huntington last evening, an interesting and instructive talk to the class and light refreshments were served.

Mrs. William Fitzgerald arranged a pleasant surprise party for Mr. Fitzgerald last evening, yesterday being his fifty-eighth birthday, when she entertained four tables of euchre, Mrs. Katherine Horr and Michael O'Neal winning the honors. Dainty refreshments were served at the close of the evening.

Miss Cora Winship entertained the eighteen members of the Embroidery club yesterday afternoon at her home in East Fifth street. One out-of-town guest, Miss Liza Templeton, of Detroit, was in attendance. After the pleasant afternoon was spent over fancy-work, refreshments were served by the hostess.

The members of the C. W. B. M. of the Plum Creek Christian church met with Mrs. Ed Myers yesterday afternoon with Mrs. J. L. Morris, as leader. A patriotic spirit was shown throughout the entire meeting, flags being used as decorations and "America" was sung in chorus. Light refreshments were served at the close of the meeting.

Twelve members of the Sunshine Embroidery club of Raleigh were delightfully entertained with an all day meeting yesterday, by Mrs. Ed Chambers of East Seventh street. Flags and spring flowers were used in profusion to decorate the rooms. At noon a bounteous pitch-in dinner was served, after which a social time was spent with sewing and fancy work.

Mrs. Ida Robbins entertained with a delightful three course dinner today at her home near Raleigh. Masses of flags adorned the walls of the rooms, and small flags were given the guests as favors. Those enjoying her hospitality were the Misses Zula Jackson, Dessie Knotts, Lela and Lula Ratliff of Connorsville, and Miss Stucky of Falmouth.

A number of friends enjoyed a pleasant pitch-in supper last evening at the home of Mrs. Joseph Pugh in West Second street. The guests included Mr. and Mrs. Charles H. Brown, and their guest Miss Blanche Ball of Connorsville, Mr. and Mrs. Merrill Ball and family, Mr. and Mrs. I. L. Clifford, Mr. and Mrs. Jesse Poe and daughter Mary Louise, and Mrs. Ernest Mitchell. After the bounteous supper, a social evening was spent.

A six o'clock dinner given by Mr. and Mrs. Clint Bodine last evening, proved to be one of the most pleasant affairs of the kind, during the season. Clusters of sweet peas were used to decorate the different rooms and a large bowl of the same

State Superintendent, in Letter to C. M. George, Makes Suggestion

A letter suggesting that high schools and eighth grades give full credit to pupils in event they enlist in the army or answer the call of the farm to help produce food, has been received by County Superintendent George from Horace Ellis, state superintendent of public instruction. The matter will not be taken up in Rush county at this time as many of the schools are out for the year and the terms of others are rapidly drawing to a close. The state superintendent also urged that President Wilson's "war message" be read and studied in the schools.

We know but one law—that of the constitution of the United States which has been more than generous in its protection to emigrants from every land. We know but one Flag—that of the glorious Stars and Stripes. Now that a new and deadly peril menaces that Flag and our peace and prosperity, and we know that many lives must be sacrificed to defend it and our homes, and having been organized for the purpose of patriotism and to maintain true allegiance to the United States of America and to uphold and honor the Flag and universal liberty and equal rights to all, Therefore be it resolved:

That we pledge anew our allegiance to the Flag for which our heroes fought, and tender our services in any manner, which will be a help to protect that Flag both on land and sea, from the desecration proposed by a foreign enemy.

Daughter of Lucky Baldwin Takes Atlantic City by Storm—In Easter Parade

GOES THERE IN PRIVATE CAR

Also Had Her Private Yacht Sent There by Way of the Panama Canal.

(By United Press.)

Atlantic City, April 12.—Mrs. Clara Baldwin Stocker, daughter of "Lucky" Baldwin of California, is easily the sensation of the season among the 200,000 distinguished society guests of the city who were here for the annual Easter Sunday peacock parade on the Boardwalk.

Judged as a whole, styles run to the more simple designs with a suggestion of the military. Of course there appeared the usual extremes, —zebra-like stockings presented to better view by unusually short skirts, freakish hats and other novelties—but for the most part even the most wealthy preferred simple lines, even if the material was gorgeous. Some women carried canes.

Mrs. Stocker arrived at the shore in her private car, "California," and had her private yacht brought here via the Panama Canal. Its name is "California" too. Mrs. Stocker, whose wealth is estimated at \$16,000,000 appeared here wearing her \$500,000 set of diamonds.

Among the most prominent guests here yet are: Mary Roberts Rhinehart, Mrs. Alice Vanderbilt, Mr. and Mrs. Stephen B. Elkins, Mrs. Clara Baldwin Stocker, Cyrus H. K. Curtis, Edwin Warfield, ex-governor of Maryland; J. Howard McFadden, Mr. and Mrs. L. E. Swift, Mr. and Mrs. Arthur B. Twombly, J. M. Norcross, Montreal; Mr. and Mrs. H. F. Du Pont, Mrs. A. V. Benson, Albany, Mr. and Mrs. F. G. Adams, Toronto; Former Senator John C. Spooner, New York; Mr. and Mrs. W. Wallace Jones, Toronto; George W. Dunham, Detroit; Miss E. Every bit of worn flooring—every scratched staircase—every worse-for-wear piece of furniture in your home—is an urgent invitation to get busy with Kyanize. Made for floors. It's good for all woodwork.

Get a 15c Can FREE!

Simply bring this ad to the store with 10c for a handy brush to apply the Kyanize, and we will give you a regular 15c can free (your choice of 8 popular colors)—enough to do over two small chairs or the wood trim of a small room.

Don't delay on this offer. Get acquainted with Kyanize. It is a great little home brightener—the sworn enemy of patchy floors and dingy furniture. Doesn't scratch or show heel marks. Easy to apply—goes further—dries quickly—and my, how it wears! It is waterproof too.

HERE'S ONE LONG DISTANCE RECORD HELD BY LANSING.

Washington, April 12.—Secretary of State Lansing holds the world's long distance ambidexterity record. That is, he claims it. But secretary Baker claims it, too. The evidence is here submitted for public decision.

Secretary Lansing gave an exhibition of handling diplomatic correspondence with one hand dashing off enticing profiles of charming Gibson girls with the other, smoking a pipe the while. Secretary Baker signed army officers' commissions with one hand, handed them to a messenger with the other, listened to his secretary read the day's accumulation of mail and dictated replies, all at the same time, smoking a pipe the while. The race is neck and neck.

An Early Christian

Does your minister practice what he preaches? the newcomer questioned. "He does," the citizen answered with a sigh, "and I'd be perfectly willing to have him stop. He lives next door to me, and begins at 7 o'clock Sunday morning to practice what he is going to preach."—New York Times.

IS BEATING NATURE

St. Paul, Minn., April 11.—While her neighbors are paying high for potatoes Mrs. W. H. Hall of Bald Eagle is growing them in her cellar. She planted them about Christmas time. When the sun does not shine she turns on the electric light and the tubers flourish. In fact, she makes them grow day and night.

The Boy

He knows what he wants. Just put an **EXTRAGOOD** suit upon him.

These **EXTRAGOOD** clothes fill the bill. Carefully made. Seams straight. Buttons well sewed. No careless work.

The boy really cares about looks—whether one shoulder is crooked because the coat is poorly made, for example. If trousers do not hang right, they are uncomfortable for him. If metal buttons tear off, he suffers.

Buy **EXTRAGOOD** clothes and these things do not happen. These suits not only have good style but they are thoroughly well made. Try them.

BULL MOOSERS WANT LIBERALS

In Making Arrangements For Next Campaign They Seek This Element of all Parties.

GATHERING AT ST. LOUIS

Will Declare For Nation Wide Prohibition and Universal Military Training.

(By United Press.)

St. Louis, April 12.—National Progressive Party leaders gathered here today to unite under the Moose banner the liberal elements of all political parties to organize a party and a campaign for 1920.

Neither Theodore Roosevelt nor George W. Perkins was invited. Albert D. Norton, who has been a member of nearly all parties and an ardent Mosser since 1912, is the leading spirit of the convention.

The plan is to weld the liberal elements of the Democratic, Republican, Socialist, Labor, Prohibition and Women's parties in a National Liberal Party.

Among those interested in the party are Matthew Hale of Boston, formerly a member of the Moose National committee; J. A. H. Hopkins of New Jersey, John M. Parker of Louisiana, and others. It is hoped Bainbridge Colby, Victor Murdock, and other middle western leaders will take an active part in the convention.

Norton and other leaders said today the "Solid South" would yield only to a third party that embraced the ideals of all parties now in the field.

Permanent working plans for the future will be formulated and it was learned that nationwide prohibition and a declaration for universal military training will be added to the platform of 1912, which, it is expected will be endorsed.

A committee of the Socialist party which has been in session here for nearly a week will meet with the executive committee of the Bull Moosers.

RELICS WILL BE SOLD AT AUCTION

Prized Heirlooms of Descendants of Washington Will go Under Hammer.

PORTRAITS IN COLLECTION

New York, April 12.—Direct descendants of George and Martha Washington will put some of their most prized heirlooms under the hammer at the Anderson galleries here a week from today.

Included in the collection is an unknown portrait of Washington's mother, which will be held at a minimum bid of \$10,000. There also is an unknown portrait of Washington himself which will be held at a minimum bid of \$5,000. Martha Washington's wedding ring and other personal possessions of the Washington family will be put on the block.

BABY WEIGHED 21 POUNDS.

Minneapolis, Minn., April 12.—Minneapolis boasts the biggest boy baby in the world, in the son of Mr. and Mrs. Frank Mandajak. He weighed 21 pounds at birth, March 20, according to records filed with the city health department today. His parents are Polish. His father is a laborer. He is in every way a normal baby, except for his weight.

LABOR LEADER TO GO BACK TO MINES

John R. Lawson, Implicated in Ludlow Massacre, Starts at Foot of Ladder Again.

HE TURNED DOWN A SOFT JOB

Denver, April 12.—John R. Lawson, the labor leader who was convicted of murder in connection with the Ludlow massacre a while back, today gave up his place as a leader, donned overalls, fixer a miner's lamp to his cap, shouldered his tools and went down into a little mine in the Frederickburg district to earn his living once more digging coal.

Lawson came up from the ranks. He was a member of the international council of the United Mine Workers. He turned down a soft job with the union when his term expired the other day and went to work.

LIVELY FIGHT PROMISED

D. A. R. May Furnish Excitement in Annual Election.

(By United Press.)

Washington, April 12.—Washington is looking forward to a lovely party when the National Society, Daughters of the American Revolution gather here next Monday for the twenty-sixth annual congress.

Four energetic candidates are in the race to succeed Mrs. William Cumming Story, of New York, as president general. Mrs. George Thacher Guernsey, 'State regent of Kansas, has a slight lead over her three opponents in pledged votes.

Eleven vice president generals and a full ticket of national officers, are to be voted upon, with candidates galore for each office.

THUMB NAIL SKETCHES OF MEN WHO RUN THE UNITED STATES NAVY

(By United Press.)

Admiral McGowan

Washington, April 12.—The man who supplies the fleet with its vast quantities of "housekeeping" supplies,—food, fuel and other stores,—is Admiral McGowan, Chief of Bureau of Supplies and Accounts.

The Navy names him as the man who has made "a smoothly running military machine, of the great supply system. Under his regime great strides have been made in furnishing the fleet at an instant's notice with all it needs for any task. His is the business side of the navy, which calls for sound business judgment. He was selected for the post because of his "remarkable efficiency" as Fleet Paymaster.

McGowan is one of the best looking men in the Navy. He has the strength and forcefulness of a giant, weighs about 200 solid muscled pounds, has a voice like a bull and is as democratic and companionable as a politician running for office.

Gary—When John Bonham, 66, was refused permission to join the army, he broke down and cried. He is a veteran of the Civil war. When he was finally convinced that there was no chance for him to enlist, he started back home to get some of the younger folks to join.

DON'T SUFFER WITH NEURALGIA

Musterole Gives Delicious Comfort

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on the temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

Serum Station.....

The Swine Breeders Pure Serum Company of Thorntown, Indiana, has established a Serum Station at Rushville for the benefit of their stockholders and also the farmers of this part of the State who want to use a high class serum.

We sell direct to the farmer and guarantee him the best, pure, potent serum and virus that can be obtained anywhere. This serum is strictly troat bled serum, obtained by killing the hog outright and this is the only plant in the country using this method.

The company has arranged to keep serum on hands at Kramer's Cold Storage Plant, and anyone wanting serum can get it any time. We are prepared to answer calls for vaccination at all times and have an office with the Nipp Insurance Company over the Rushville National Bank.

Why is the guarantee on BUICK cars more liberal than any other car selling at several hundred dollars more? Why is it that Buick cars have longer life than some others and the upkeep so much less? Why is it that in the last fuel economy contest that was held in New York the Buick won first, second, third and fourth prizes? Why do you buy an automobile whose engine has proven itself to consume more gasoline than a valve-in-the-head Buick? Why don't you permit us to prove the above fact (if our competitors cannot) and then you will fully realize what is meant by us when we say WHY DON'T YOU BUY A BUICK? Don't buy more than you need nor less than you need in a motor car. Invest your money carefully and wisely. Remember that excess weight and unnecessary size and power are expensive in every sense of the word, but remember also that if you get a car that is too small and too light you stint yourself on comfort and appearance and real service, in addition to depriving yourself of many features which most buyers of today demand.

Another Puncture

It always happens at the most maddening time—just when you want to catch a train or keep some important engagement. And usually it isn't really a puncture at all, but a leaky tube.

Now porous rubber (so-called) and leakage around the valves are among the commonest failings of cheap, machine-made tubes. If you are tired of these needless "punctures" equip your car with Kelly-Springfield Tubes. They are made slowly and painstakingly by hand out of real rubber.

They can be punctured, of course, but they won't leak. If you use Kelly-Springfield Tubes in Kelly-Springfield hand-made, real rubber tires you will add increased mileage to freedom from needless tube troubles. That's why the tubes and tires we sell are

PEPSINCO

ON EVERYONE'S TONGUE. HUNDREDS IN THIS CITY NOT ONLY SAY PEPSINCO, BUT TAKE PEPSINCO AFTER EVERY MEAL. THAT'S THE REASON THEY HAVE A GOOD STOMACH.

Pepsinco—say it yourself that it may be easy to remember, easy to pronounce, easy to recall. Pepsinco demonstrates and identifies the strongest, most vital, most valuable remedy for indigestion and dyspepsia in the market. Every time you say Pepsinco to your druggist you are asking him for relief for your dyspepsia.

Thousands upon thousands of persons are taking Pepsinco and are having perfect health. Many of them suffered with indigestion, sick headache, sour stomach, dyspepsia, palpitation and other stomach disorders. They are well today. They took Pepsinco because it helped others, because it is highly recommended.

You try it out. Take a dose of this remarkable preparation, Pepsinco. You'll find we are right. You'll feel better after the first dose. Its prompt action will bring you around to normal health quickly and safely.

So many ordinary ills are closely allied to stomach faults that it is safe to apply the definition of indigestion to practically every internal complaint. If you have trouble with your food; if gas follows eating; if belching distresses you; if flatulency produces heart palpitation or heartburn, then Pepsinco is the preparation for you to take, for it offers the relief decidedly the quickest and best.

You who have suffered with indigestion and dyspepsia owe it to yourself to try Pepsinco. You cannot afford to delay longer. You cannot afford to take false or questionable remedies, the composition of which is uncertain and perhaps wrong. Buy Pepsinco of your druggist and get the scientific indigestion remedy. All druggists have Pepsinco, or we will send you a sample free of charge. The Neuro Pharmacal Company, Wapakoneta, Ohio.

additional will be given preference of either common or preferred stock just as the other local stockholders have.

Since a majority of the stock now held is common, there is every reason to believe that many men with money can be induced to buy preferred stock as an investment. It will pay seven per cent and will be secured not only by the real estate and factory building which will be constructed, but by the machinery and equipment as well.

The site which is now most favored is in the Stewart and Tompkins addition. Four lots lying together which face in George street and extend from Eleventh street north, are now being considered. This site has many valuable assets, as pointed out by stockholders who have looked over the situation. One of these is the fact that all of the lots, with the exception of possibly one, can be purchased with stock in the company. This means there will be no actual expenditure of money to get a site whereas all other sites under consideration would have to be paid for in cash, and one of them has been priced to the company at \$1,000. In addition a sewer would have to be run to the lot and would cost about three hundred dollars.

On the site suggested in the new addition, a building fifty feet wide and a hundred and fifty feet long, which was the size President Falk really wanted, can be erected, facing in Eleventh street and running north and south along George street. This would leave ten feet on the back end of the factory and prevent the erection of any building close to the factory which would increase the fire risk. If this sort of a building were erected, a piece of ground one hundred and sixty by eighty-five feet would be left which would provide ample room for additions.

TAKES AUDIENCE FOR TRIP ALONG CANAL

Miss Anita Conte Shows Interesting Views of Venice and Describes Castles and Gondolas

PICTURE OF RIALTO BRIDGE

Miss Anita Conte, a native of Venice, now associated with the Indianapolis Conservatory of Music, delivered the second of a series of lectures regarding Venice at the Graham school assembly room last night. Her subject was, "Masters and Masterpieces of Venice."

With the aid of stereopticon views, she took the audience for a sight-seeing trip along the Grand canal, the "Fifth Avenue" of Venice. She showed pictures of the old castles which stand there and told much of the intimate history of them, also describing the architecture in minute detail.

Miss Conte showed pictures of the type of gondola used in Venice and described their construction and how repairs are made. The average life of one of them is five years, the lecturer said. She declared that the right to be a gondolier is inherited and that there can be only two in any family. Miss Conte showed views of the famous Rialto bridge, the most beautiful bridge in the world. She said that it was characteristic of the people of Venice that they lived within their own sphere and took little notice of world affairs.

PLANT NOW TO WIN THE WAR IS SLOGAN

Nation-Wide Campaign For Thrift Gardens Contemplates Half Million New Patches

CROP SHORTAGE STIMULANT

St. Louis, April 12.—Today it was learned here that on last Saturday when the government crop report announced a shortage of fifty million bushels in the winter wheat crop, and sent prices soaring in the man, of the Department of Agriculture that is fully informed upon and exchanges. Asst. Secy. Carl Vroom deeply interested in the Thrift Garden work of the National "Clean Up and Paint Up" Campaign Bureau, wired the Bureau here as follows:—

"Without going beyond their door-yards millions of American women and children can render service to the nation now as real as that rendered by the soldier on the field of battle. A million gardens planted in the cities, suburbs and country would mean the release of millions of pounds of foods to our allies. Plant Now. Get into the game, and do your bit to win this war."

The nation-wide campaign for "Thrift Gardens" was inaugurated by the National "Clean Up and Paint Up" Campaign Bureau, St. Louis, founded by Allen W. Clark, five years ago. Last year it organized campaigns in 7,000 cities and towns, in which garden work was tried with success by many communities. "Already this year," Mr. Clark says, "probably a half million new gardens are assured our local gardens committees in several hundred cities; and the work has just started."

EVER HEAR OF A DYNAMITER WHO IS A PROFESSIONAL?

Chicago, April 12.—"Got any use for a professional dynamiter?" was the startling query adressed to Sergeant Enk of the United States Marine Corps recruiting station here by Robert S. Phillips, who applied for enlistment today.

"I am a human torpedo," he added, "I can blow up anything from a tin can to a battleship."

Phillips explained that things had been quiet in his line for some time, as engineering operations have been practically suspended during the war. He said that he had heard that the "soldiers of the sea" were always first on the spot, and that they would probably offer the best field for his talents.

He was accepted and sent to Charleston, S. C., for training and detail to a mine planting company.

Thoughts on Taking a Bath

One doesn't realize, until one gets in a bath tub, how inconveniently the middle of one's back is arranged. You can't climb up over your shoulders with a wash-rag and get at it. You can't dart under your armpits and take it by surprise. You cannot in any satisfactory manner reach it. It is inaccessible.

Somebody invented a brush once that you could attach to a handle and send out after the middle of your back with a load of soapsuds. But either the brush slips off. Or the handle is lost. Or the handle is there and the brush is gone.

Unquestionably, someone blundered in locating the middle of man's back. Why couldn't it be abolished? We don't use it for anything but to lean against, anyhow?

NOTICE

For the Improvement of Highway in Orange Township, Rush County, Indiana.

Notice is hereby given that a petition has been filed in my office for the grading, draining and paving with crushed stone of a highway in Orange township, Rush county, Indiana, which petition is in words and figures as follows, to-wit:

STATE OF INDIANA, RUSH COUNTY, SS. To the Honorable Board of Commissioners of Rush County, of the State of Indiana: The undersigned petitioners show to your Honor-able Board that this petition is signed by at least fifty freeholders and voters of Orange township, Rush county, Indiana. That there is an existing highway in said township described as follows: Beginning at a point on the township line between Walker township and Orange township, Rush county, Indiana, where said highway intersects the same; thence south along said existing highway and on the line dividing the east and west halves of Section 31, Township 13 north, range 9 east, and extending south along said line about one mile to the north end of the north branch of Norman Apple Highway, which is a few rods north of the south line of said Section 31, Township 13 north, Range 9 east.

Your petitioners respectfully petition that said highway be improved by grading, draining and paving the same with crushed stone as follows to-wit: That said highway should be paved and improved to the width of 40 feet.

The grade thereof to be constructed to a width of sixteen feet. That all necessary drains, side drains, bridges and culverts therein be so constructed as to make said road a complete road.

Said petitioners would further show that said Orange Township has no incorporated city within it which is of less than thirty thousand inhabitants and that there is no town or city within said township which has as great a population as thirty thousand inhabitants and that no incorporated town or city is located in said Orange Township.

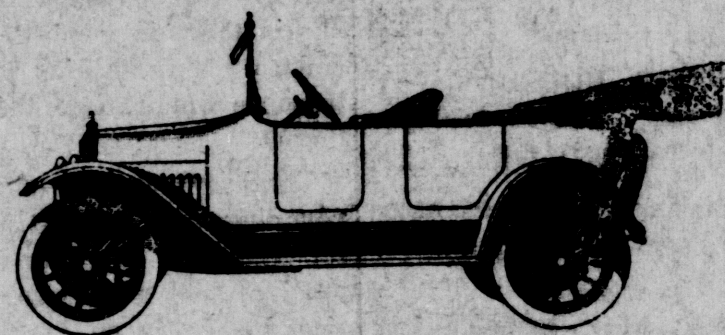

Said petitioners further show that said road would be of public utility and that it will be of public utility to drain, grade and pave the same as herein set out and that the costs thereof will be less than the benefit thereof and that said road will not pass in or through any incorporated city or town.

Said petitioners also show that said road is less than three miles in length to-wit: Eighty less than one mile and connected with the township line between Walker and Orange townships on the north and with the Norman Apple highway on the south and upon and over said highway runs a United States Rural Mail Delivery route, and your petitioners pray for the location and improvement of said highway in all things in accordance with the laws of the State of Indiana.

Attainment

To build a motor car of light weight, attractive appearance and low operating cost; to equip it with every device for comfort and convenience; throughout to install a value and character that we could be proud to endorse with our name and reputation; and to offer such a motor car at a price made possible only by scientific manufacturing and a great volume of business.

This ideal, conceived almost thirteen years ago, has been the guiding influence in the destiny of our institution. Its soundness is established by our success and the great good will earned by the Maxwell car.

GERMAN GETS PATENT.

(By United Press.)

London, March 22.—(By Mail)—In the second full year of the world war, there were 18,686 applications for patents registered at the British patent office. This represents an increase of 461 applications over the previous year. A good proportion of the applications were made for patents on instruments and munitions of war. Artificial legs are being perfected too, the list shows.

It is a curious fact that the only patent granted an enemy alien since the war began was issued to a German. It was a process for "grinding swords" and licenses have been issued to Sheffield firms to use the new invention.

INDIANA WOMAN ACTS AS GUIDE

Mrs. Ruby Gaunt Aids English Sol-
diers in Finding Correct Trains
to Their Homes.

STATIONED AT KING'S CROSS

Native of Frankfort Seeing Active
Service in London—Married
an Englishman.

(U. P. Staff Correspondent.)

London, March 20.—(By Mail)—

With a bituminous grunt the blunt-
nosed engine of the "leave train"
jerks to a full stop in King's Cross
station. Compartment doors fly open
all down the length of the coaches.
Tin hats clatter against butts,
tin drinking cups jangle on bayonets
and steel studded boots make a
thunderous sound on the pavement.
But, frankly, Tommy is lost.

The ferocious fighting man from
the Ancre, Salonica the Mesopota-
mia is a bewildered boy during his
stopover in London on his way
home on leave.

And that is why Mrs. Ruby S.
Gaunt is standing at the head of the
platform, with the smile that came
from Frankfort, Indiana. Bundled
in a furcoat, with a perfect knowl-
edge of train times at the tip of
her tongue and a railroad guide on
her arm to convince the doubtful,
she is there in good weather and
bad to tell these kids from the
trenches where to go and how to get
there.

The brown swarm of men come
pounding up the platform, looking
for signs. A dozen or so are clus-
tered around a sergeant asking ad-
vice, but he is an ex-farmer and
does not know any more about Lon-
don than the Welsh miner beside
him. Mrs. Gaunt pushes through
the crowd to get at the sergeant like
a football player going for the ball.

"Now, sergeant," this in a busi-
ness like voice tempered by that
smile, "where are these boys going?"
Sergeant salutes and re-
plies: "Oh, everywhere, Miss Cap-
tain."

"Well, get them in groups going
the same way, to simplify matters."
The Sergeant complies. A dozen
want to go to Leeds, others to un-
pronounceable Welsh towns, ten to
Lincoln and others are scattered in
their preferences.

Take the Leeds men for instance.
Mrs. Gaunt says: "Your train goes
at 4:20. It's two o'clock now.
Here's what you'd better do. Go
over to the Lord Roberts' canteen
and stow your rifles and kits. Have
lunch there. Then you may stay in
the reading room, play the phono-
graph or sing, or you go out to a
picture show—one round the corner.
But be back here at five minutes to
train time at track four."

Every man of them salutes exact-
ly as he would his commanding offi-
cer and they go off saying: "Thank
you, Maw," or "Mother, you're
kind."

A Canadian boy with his face
badly shot away seemed mixed up
in his direction.

"Where are you bound for, Ma-
chine-Gun?" asked the infallible
guide from Indiana, catching hold
of his lapels.

"No where," said the boy through
the bandages of his shattered jaw,
"Just wandering around." His eyes
narrowed as he, grinning, asked:
"Aren't you from Canada? I
haven't seen anyone with a smile
like yours since I left home."

Mrs. Gaunt is the wife of an Eng-
lishman and, therefore, strictly
speaking, is an Englishwoman. But
America hasn't lost her entirely, be-
cause she never will lose what she
calls her "Indianaish accent." She
regards all soldiers and sailors as
boys.

"Tommy or Jack, eighteen to fifty,
they're all kids at heart," she said
today. "They'll have to grow up
again when the war is over. I don't
mind being called 'Maw.' It sounds
a little familiar, but it is the high-
est mark of respect coming from
them. Some soldiers call me 'General,'
which means the same thing—
respect."

Styleplus Clothes \$17

"The same price the nation over"

Are Still \$17, But The Price of Nearly Everything Else Has Jumped.

When the war came everyone in the
clothing business thought that wool
would go up. The makers of Style-
plus Clothes \$17 on account of their
extensive advertising were duty bound
to keep on supplying the public with
"all wool fabrics, expert tailoring, the
skill of a great designer," at the known
price \$17—provided there was any
way on earth to do it.

What happened? These makers
bought woollens and linings in tre-
mendous quantity. They kept on ad-

vertising "the price remains the same."
Volume doubled, manufacturing costs
dropped because of the increased pro-
duction—new efficiency and new
economies came to light through the
"necessity of the hour."

Incidentally, the makers as well as our-
selves have been content with a small-
er profit in order to keep your price
the same.

Sour Soil Should Always be Avoided

Gardener Should Put It
Through a Simple Test to
Make Sure Before Any
Planting is Done. Don't be
in Too Big Hurry to Get in
Garden.

By CARL VROOMAN

Assistant Secretary of Agriculture
Member National Emergency Food
Garden Commission
(Written for United Press.)

Washington, April 12.—When the
back yard is ready for spading, the
first thing to do is examine the soil
—first its chemical condition, then
for its planting condition. Soil of
the average city back yard may not
be very good for the purpose of
planting vegetables with a view to
cutting the cost of living.

In the Spring as soon as the soil
has dried grasp a handful of it and
if it will slowly fall apart it is in
fit condition to prepare for plant-
ing. Never work clay or heavy soil
while wet.

Soils which are naturally moist
are sour and as a result are not in
the best condition for planting.
Whether sour or not it will be

well to test the soil. A piece of blue
litmus paper should be obtained
from a drug store. Take a handful
of the soil slightly moistened and
place the paper on it. The paper
will turn red if the soil is sour.

If this condition is shown it can
be corrected with a little lime. Cover
the ground with a thin coat of
air-slaked lime, which can be ob-
tained at little cost. Work this in
well.

Clayey or stiff clay loam, where
severe freezing has occurred, will be
in a much better condition if it has
been given a good dressing of man-
ure in the Fall.

Don't be too quick to get into the
garden work. Some of the over-
zealous seize the first warm spell as
the opportunity and work heavy
clay soil - before it is dry. They
waste energy and do harm to the
soil, from which it will not recover
in a long time.

Timeliness is a big item in gar-
dening and the thing to do it to have
everything ready when the right
time comes. Fresh vegetables are
very desirable and those from the
back yard garden are not subjected
to exposure and transportation.
Then, too, home-grown products are
free from infection.

Another point is that many gar-
den products lose flavor between the
time they leave the farm and reach
the city table. This is avoided in the
home-grown garden. It is not de-
sirable to start things before danger
of late frosts is over.

Hartford City—Thirty high school
boys have planned to join the army.
School credit will be given for the
time they are with the colors and
seniors will be graduated with their
class.

COST OF WAR THUS FAR IS STAGGERING

Total Debt of England Close to
Nineteen Billion and Germany
Sixteen Billion.

AND THE END NOT IN SIGHT

Teutons Have About Ten Million
Men Under Arms While Eng-
land Has Half as Many.

BY GEORGE MARTIN.
(U. P. Staff Correspondent.)

New York, April 12.—The end
of the British fiscal year and the
closing of subscriptions to the new
German war loan fell on the same
date, today, bringing into the lime-
light the staggering totals of cash
spent on the war thus far by these
two belligerents.

England has spent more than
Germany, her total to date being
to Start It "Drive" on Dixie—

England estimates she is spending
approximately \$27,907,700 a day in
her fight to whip Germany.

Germany has spent \$16,750,000,
000 in her attempt to whip England.
This includes the 4 million dollars
sought in the new German loan,
subscriptions for which closed to-
day.

It was last December that the
British Counsellor of the Excheq-
quer asked for the latest \$1,948,
000,000. At the same time the call
went out for a million more men of
all ranks. This million men brings
the total number of British sub-
jects under arms and in training, to

to 5 million. Germany has approxi-
mately 16 million men under arms
and in training.

England estimates that she has
3,219,000 women in war service and
other occupations. The British
casualties daily in killed, wounded
and missing are estimated at 38,-
000. Casualties for all belligerents
in kill, wounded and missing since
the beginning of the war to date are
estimated at approximately 23,000,-
000 men. Of these casualties Ger-
many has suffered slightly more
than 4 million, England slightly
more than 2 million, France about 3
million and a half.

It is estimated that England's in-
terest on her present war debt for
one year is well over \$200,000,000.
Germany and France face deficits in
proportion to this. For months
Germany and England have been
mobilizing hundreds of thousands of
women to work either directly be-
hind the fighting lines, elsewhere
along the fronts or at home in what
is known as civil war service. The
voluntary period of enlistment for
this service expires in Germany to-
day and tomorrow compulsory ser-
vice will be inaugurated.

R. L. Tompkins and Will Dill Are
Elected Directors to Repre-
sent Stockholders Here

A committee started out this morning to raise five thousand dollars more money to buy a site and build a factory for the Modern Appliance company which will be moved here from Chicago, following a meeting last night, at which two directors were elected to represent the interests of the Rushville stockholders and at which it was determined that more money would be needed to place the factory on a solid basis at the very start.

R. L. Tompkins and Will Dill were elected directors to look after the interests of the local stockholders. They were nominated and elected unanimously. The board of directors will be composed of five men, the other three being Erling Falk, J. Vincent Murray and A. Duane Brewer of Chicago.

Stockholders present last night signed their stock pledges and designated what kind of stock they wished. The big majority of them took common stock, very few of them selecting preferred stock. The stockholders also signed articles by which power will be given to the directors to incorporate under the laws of Indiana.

The company will be incorporated at \$75,000, two-thirds of which will be common stock and one-third preferred. The articles of incorporation will be filed just as soon as enough money is assured to build the factory building.

Every day that the subscription of the additional five thousand dollars is delayed, just that much longer will the actual location of the factory be delayed, it was stated by one of the stockholders last night. It is the earnest hope of all the stockholders that it will be possible to begin setting machinery within thirty days.

After a careful survey of the local situation, stockholders have arrived at the conclusion that a new building is the only solution of the problem. There are no buildings here not in use which would be suitable for the factory. Even if some make-shift affair could be arranged, which it is certain can not be, it would not be fair to the factory, many argue, to give it a bad start.

The argument is that no handicap should be put in the way of the factory to keep it from accomplishing all that it can when conditions are right. The factory should have a suitable location and good working conditions, as well as ample capital, which is already provided. But if some of the money already subscribed for stock were invested in a factory site and building, the working capital would be reduced so that the company would not be getting an equal chance to prove its worth.

The only alternative is to raise five thousand dollars more by stock sales to provide a home for the factory. The opinion was expressed last night that this can be accomplished. Those who subscribe this

Document Recites Patriotic Efforts of the Organization in Other Wars

The Womans Relief Corps, at a meeting yesterday, pledged anew its allegiance to the flag and tendered its services in any capacity for the protection of the flag, in the resolutions which were adopted as follows:

Fifty-six years ago today our flag was fired upon at Fort Sumpter, and that was the beginning of the Civil War, when the North and the South waged its fearful battles which were for the equalization of human rights, and which were the primary reason for the formation of our order, as it is today and has been for thirty years, a pioneer in charitable and patriotic work. The right triumphed as it should and our flag floated in peace until 1898 when again human rights were trampled on and human lives were sacrificed by a foreign nation when the Maine was sunk. At the call for troops a company was formed here, and we as an order aid what we could on their going away, and when peace was restored welcomed

TALKS TO CINCINNATI CROWDS ABOUT LOOP

Pres. Charles L. Henry of I. & C. Tells of Advantages That Will Accrue to The City

WILL MAKE EXTENSION SURE

Charles L. Henry, president of the Indianapolis & Cincinnati Traction company, is in Cincinnati working in the interests of the loop ordinance, by which interurban lines will be able to get into the city, and on which the people of Cincinnati will vote next Tuesday. President Henry is interested because the extension of the I. & C. from this city to Cincinnati depends on whether the loop is built.

Cincinnati newspapers say that the Citizens' Rapid Transit Commission has obtained the consent of Mr. Henry to speak to Cincinnati audiences about the advantages that will accrue to Cincinnati with the building of the rapid transit loop.

The Commercial Tribune is in error when it explains that the extension will be made from Connersville because it is already assured that the extension will go from here. The Tribune says that on the first day the loop is operated, interurban cars from Indiana will make their first appearance on the streets of Cincinnati. President Henry has assured them of that.

BULGARIA BREAKS WITH U. S.

ALL EMPLOYEES ARE URGED TO ATTEND

Every Concern in City This Morning Receives Letter Announcing Flag-Raising Sunday

ELABORATE PLANS ARE MADE

Joint Ceremony Will be Held on Platform in Julian Street Near Glove Company Building

The elaborate plans being made for the triple flag-raising ceremony at the Rushville Glove company's factory Sunday afternoon at two-thirty o'clock indicate that it will be probably the most widely attended patriotic meetings held here.

A platform will be raised in Julian street near the glove company's building and an extensive program will be followed. The program is now being prepared and probably will not be announced before Saturday. It is already assured that the Odd Fellows band will play.

The flag poles have been provided and were being erected today in preparation for the flag-raising Sunday. All of the poles are gas pipe. The two placed on the power house and car barns today are 45 feet long. The one erected on the glove company building is twenty-five feet long.

Not only the employees of the glove company, but those of the I. & C. car barns and the I. & C. power house will participate. A flag will be purchased by the employees of each place and raised over the respective buildings, but the ceremony will be held together.

Every concern in the city this morning received a letter urging that their employees be invited to the flag-raising. The letter follows:

At the request of the employees of the undersigned we will thank you to invite, through your usual notification channels, your officers, employees and their families to be present and assist in the triple flag raising to be held at our plants on Sunday, April 15th.

An appropriate program is being arranged. Music will be given by the Odd Fellows Band and well known speakers will address you. Final arrangements and program

FIRE DESTROYS THE MULLINS SHOP

Loss to Building and Contents in Early Morning Blaze is Estimated at \$1,000

VERY LITTLE INSURANCE

Smouldering Metal Which Was Tempered Last Night May Have Been the Cause

Fire of unknown origin at five o'clock this morning destroyed the blacksmith shop of James J. Mullins, 118 South Perkins street, and for a time threatened the surrounding buildings. The loss to Mr. Mullins is estimated between \$400 and \$500 without any insurance. The building, which was practically destroyed, was owned by Miss Laura Trussler. There was \$300 insurance on the building, but whether sufficient to cover the loss is not known. The entire loss is estimated at about \$1,000.

The fire apparently started near the center of the building along the north wall and then spread to the entire structure. The blaze was discovered by Fred Brown, who resides in the Manzy flat. He called the fire department and after two lines of hose had been laid the alarm was turned in.

When the place was closed last night there was no fire left and the origin will probably remain a mystery. Some were of the opinion that the building had been set on fire but there was no proof of this and not much reason to suspect it. Mr. Mullins stated that yesterday he had tempered some metal and it is probable that the fire was caused by the metal smouldering throughout the night until it finally broke out this morning.

The fire department did heroic work to save the building occupied by Wade Sherman's carriage shop, two doors south. An old barn is between the Mullins shop and that of Sherman and the department prevented the barn from burning. This in turn prevented the flames from reaching the Sherman building.

The telephone company suffered a slight loss when a cable running through the alley next to the black-

Wooden Boats To Bridge Sea

One Will be Found Every Three Miles Across Atlantic, in Effort to Smash U-Boat Blockade.

SERVE AS FOOD TRANSPORTS

Plans For Construction of Three Thousand of Them Completed and Approved by President.

BY ROBERT J. BENDER

(U. P. Staff Correspondent.)

Washington, April 12.—To smash the German U-boat blockade, the United States will virtually bridge the Atlantic. Plans for the construction of 3,000 small wooden boats have been completed and approved by the president.

The boats will be used to transport food and supplies to the entente ports.

The government shipping board has sent out a call for 150,000 lumbermen and woodworkers to start work at once. Congress has authorized \$50,000,000 to start the program and will be asked for \$300,000,000 more.

The first one thousand ships are to be completed in eighteen months and immediately thereafter two thousand more will be ordered. It is the purpose to run them in such a fashion that they will construct a veritable bridge across the sea, one boat every three miles. The boats will be equipped with wireless and anti-submarine guns.

GERMANY MAKING PEACE OVERTURES

Apparently Positive Reports Reach Copenhagen That She Seeks to Avoid War With U. S.

UNOFFICIAL OFFERS MADE

BY ARTHUR E. MANN

(U. P. Staff Correspondent.)

Copenhagen, April 12.—Apparently positive reports were received here today that Germany was making peace overtures to the United States. It was understood that these negotiations sought peace with the United States.

No further details were available here. It is understood that Secretary of State Lansing has already received the overtures through unofficial sources. The proposition as received here is for the United States to send Col. House to The Hague for a secret unofficial conference.

Germany's terms were not specified in the report but it was hinted there was no change in the position as outlined by the German ambassador in Washington in December.

Washington, April 12.—The state department declared today that it has received no peace overtures from Germany and has no reason to believe any is enroute and added that this government is not ready for any such overtures and the state department inferred that the administration's view is against a separate peace.

War Department Says Purpose is to Recruit All Units of Militia Up to 108 Companies.

Secretary McAdoo Outlines Administration's Scheme to Raise Two Billion Dollars.

(By United Press.)

Washington, April 12.—The first week of the war ended today with the United States government still actively engaged in raising a great army but with little accomplished.

Increasing opposition to the conscription idea has caused a growing feeling that a compromise may be necessary whereby the volunteer system will be given a trial before actual drafts are made. The president, however, continues firm in his determination to have the general army staff bill passed.

Meantime the war department is trying to stimulate volunteering for the national guard and issued a statement today declaring that the purpose was to recruit a group of 108 companies with the expectation of 150 later.

Under yesterday's order eliminating from the guard all men with dependents, it is estimated the present strength of the guard will be reduced ten to fifteen per cent.

Committees in both branches of congress were in conference on war measures and peace propagandists were at work particularly in the house judiciary committee, which is considering five bills.

The house military committee will report out the general staff army bill early next week, probably in time to give the volunteer system try-out before drafting the 500,000 men becomes necessary.

Secretary McAdoo conferred with the senate finance committee and outlined the administration's view of raising two billion dollars in general taxation.

News-Value of Advertising

Readers of The Daily Republican who make a practice of studying the advertising can testify to the remarkable amount of reliable information they acquire.

It is a form of education which many readers follow quite unconsciously—but none the less to distinct advantage.

A period of fifteen minutes a day devoted to reading of advertisements is as surely productive of results as is the same amount of time devoted to reading in Dr. Eliot's famous five feet of books—and perhaps the results are more immediately practical and helpful.

Not to take advantage of advertising is to neglect a plain duty to oneself.

NO MILITIA AT BATESVILLE

August A. Hackman Writes Here to Deny Rumors Being Circulated

August A. Hackman of Batesville, brother of H. G. Hackman of this city, has written the local man that there is no truth in the rumors which have been circulated here that a company of state militia is stationed at Batesville and Oldenburg to watch the German sympathizers and keep order. Mr. Hackman said in his letter that if need be a company of militia could be formed in the community to fight the Germans because all of the people there were patriotic and loyal. He declared that great injustice had been done the people there.

Amusements

The attraction at the Gem-tonight will be William Fox's "Romeo and Juliet," featuring Theda Bara, as "Juliet." Tomorrow night "Dulcies Adventure" will be shown featuring Little Mary Miles Minter. In "Dulcies Adventure" is afforded an excellent opportunity to display that sweet and pathetic child character which has done so much towards making this charming little star the most popular ingenue now appearing in the pictures. The play abounds in tense situations and pretty heart interest.

The Princess offers the next chapter of "Patria" for the first picture of tonight's program. This is the Mrs. Vernon Castle serial, which has attracted wide attention. In addition to this a Pathe Weekly and a comedy "Lake Wins Ye Lady Fair" will be shown. Friday Pauline Fredrick will be seen in the drama "The Spider." It is said to be a wonderful picture. In addition a reel of Burton Holmes travel pictures will be shown.

The Lyric will show the three act drama "The Power of Mind" for the first picture of tonight's program. Edward Coxen and an all-star cast are featured. The second is a comedy entitled "The Cave Man." Billy Van Deusen is featured. Tomorrow Edith Sterling will be seen in the drama "The Stain in the Blood."

Edythe Sterling and Norbert A. Myles, co-stars in now appearing at the Lyric Theatre, have been associated in feature photoplay productions for several years. By a strange coincidence both secured their early training in studio work at the same studios. Later they left to accept an engagement with another company. Mr. Myles left this company as did Miss Sterling some time later. Two days after Mr. Myles was engaged by the signal studios, Miss Sterling also put her signature to a contract. But neither knew of the presence of the other at the Los Angeles studios until they were selected to play as co-stars in "The Web of Grafters," which was the first of the Mutual Masterpictures produced by the Signal-Mutual company. There is no truth to the oft-repeated rumors that they are married.

BRAZILIAN PEOPLE ARE DEMANDING WAR

Break With Austria Expected in Government Circles Today—
Anti-German Feeling High

SERIOUS RIOTS REPORTED

(By United Press.)

Rio De Janeiro, April 12.—Serious anti-German riots occurred at San Paulo, according to a report reaching here. Houses of German born citizens were attacked. A break with Austria was expected today in government circles.

The German embassy staff will leave here on April 18. The Brazilian populace is demanding war and the government apparently will be unable to withstand their demands only temporarily.

SPECIAL SESSION IS TO BE CONSIDERED

Governor Goodrich Calls Conference of Leading Members of General Assembly Tomorrow

TO DISCUSS FOOD PROBLEMS

(By United Press.)

Indianapolis, Ind., April 12.—Governor Goodrich today called a conference of leading members of the legislature to meet tomorrow at the capital to consider plans for financing increased food movement started throughout the state. It was stated that the calling of a special session of the legislature would be discussed.

No statement could be procured from the governor on the calling of the special session of the legislature, but it is known that both democratic and republican leaders have discussed such a move with the executive. Should a special session be called financial matters would be the main things to be considered.

"Quaker Craft Lace" Has Won a National Reputation

Customers are designating "QUAKER NETS" as their preference when they come to our counter. They have learned that the trade-name has a meaning. They know Quaker Nets have a distinction in design and superiority in quality.

We are featuring these splendid Quaker Nets and have a famous showing for you to see.

Prices from 25c to \$2.50

Do You Know How to Select a Rug?

In the purchase of a rug few people have the scientific knowledge of rug making necessary in order to choose the best. "Three Shot," "Frame" and "Wire" are terms unknown to the average rug purchaser, and indeed to many salesmen. Formerly one must rely on the salesman's judgment; now this trade-mark

woven in the back of every yard of the rug is your guarantee of surpassing quality.

That's Why we Sell Whittall Rugs

We know, in common with many satisfied owners, that no matter how much we claim for them our statements will be borne out by the rugs themselves.

Temperment and Temper Seems to go Hand in Hand in Baseball— Cobb Frequent Offender

LATEST SCRAP WITH HERZOG

Headless Efforts Often results From Unchecked Spirit in Order to Win.

(U. P. Staff Correspondent.) BY H. C. HAMILTON.

New York, April 12.—Ty Cobb's outburst for freedom in spikes, perpetrated in Dallas, Tex., with Charley Herzog the goat is sufficient to lead any one to wonder why it is that nearly every great star in baseball has participated in many bursts of temper, many times ending in fist exhibitions.

Cobb, himself, has had innumerable episodes of temper, and many times they have developed into blows. The occasion of the butcher nearly put Ty out of baseball for a season, and there was a time when he clambered into a grandstand to take up the issue with a spectator.

Herzog is a scrappy individual and a star. Heinie Zimmerman is always eager to argue with some one—and he is a star. Joe Wood has had his fist experiences. John McGraw was a fighter and a fast one. Johnny Evers has encountered trouble in his baseball, days more times than any one ever has set down on paper.

It appears that the unchecked spirit that carries men to heights in baseball effort is just as likely to lead them to heedless effort when an argument presents itself. That probably explains why Herzog and Cobb mixed.

Cobb has confessed he intentionally spiked the Giants' second sacker. There undoubtedly was a reason for that, and when Herzog grappled with the Georgian and they went to the Texas sand in a rough-and-tumble exhibition, it was evident the fires had been smoldering.

It was a queer thing that each participant in this melee was playing under orders of two of baseball's scrappiest managers. John McGraw, himself, probably has gone through more pugilistic capers on the diamond than any man in the game, and Hugh Jennings was a baseball player of some ability with his fists. Both were members of the old Baltimore Orioles, a club that learned fighting almost as soon as it did baseball.

TO DIVIDE CROP WORK INTO FIVE SECTIONS

G. I. Christie, State Food Director, Will Appoint Separate Head For Each Department

WILL LINE UP WAR STRENGTH

(By United Press.)

Indianapolis, Ind., April 12.—Further organization of workers to bring Indiana's resources in every line up to full war strength, was planned today by G. I. Christie of Purdue university, newly appointed state food director.

Under the arrangement of the state administration so far as perfected, Christie's work will be divided into five departments and a separate head will be named for each section of the work. These are:

Agriculture—Including field crops, stock, horses, poultry, garden produce and fertilizers.

Industries—Implements, packing, canning, evaporating, alcohol distilling, munitions, automobiles, aeroplanes, clothing and shoes.

Transportation—Railroads, interurban, telegraph, telephone, highways, express and truck lines.

Finance—Banks, loan companies, rural credits, and public assistance.

Home Guard—Red cross, salvage corps, charities and public health.

Two Carthage boys—Earl Hill and Henry White—have enlisted in the army and are now at Fort Thomas, Ky., receiving training. The boys enlisted at the Indianapolis recruiting station and after being accepted were sent to Fort Thomas. Hill is a son of Mr. and Mrs. Rice C. Hill and will be remembered here by many high school students as being the star of the Carthage high school basketball team two seasons ago. White is a nephew of Mrs. Harvey Jessup of Carthage.

JEALOUSLY STIRS OLD CRACKER BOX WHITTLED.

(By United Press.)

Chanute, Kan., April 12.—Professional jealousy has stirred the rivalries of the two acknowledged cracker-box champion whittlers of Kansas. It came about thus:

A. B. Baker, an old soldier of this city, has been a famous whittler all his life, but until the past year had never had occasion to prove his right to the state championship. It was his by default, according to his enemies: by consent, according to his friends.

But last year another old soldier whittler, John Parker, came to Chanute. He believed he was more adept at the art than Baker and did not hesitate to say so. Furthermore, he whittled out several unique articles to prove his contention.

Old Man Baker snorted in disdain and set about to show the outsider a few wrinkles in what could be done with a pocket knife and a piece of wood. He scorned such soft wood as pine and used oak or walnut when he could get it. The contest now is nearing the close of its first year.

Baker's friends now claim the championship for him from the fact that from a thick walnut board he has whittled out a picture frame made of 164 small pieces and joined together so adeptly that no one can tell where the joints are made. Baker and his friends, as you might say, pause for reply.

Southern Women Taking Keen Interest in Campaign Which Starts at Charlotte.

(By United Press.)

Washington, April 12.—To further their plans for a political alliance between the South and the West, the National Woman's Party is all ready for the start of its "Dixie Drive." A small army of women in automobiles, led by Miss Maud Younger of California will tour the solid south to spread the gospel of the party.

The states to be visited include Virginia, North and South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, Arkansas, Kentucky, West Virginia and Maryland.

Six organizers already have preceded the invaders into the south. These include Vivian Pierce of California, Beulah Amidon of North Dakota, Mrs. St. Clair Thompson of North Carolina, Doris Stevens of Nebraska, Mabel Vernon of Delaware and Luch Branham of Maryland.

Mass meetings will be held in all towns and cities of importance and state conventions will be held in all the capitals.

The Southern women are taking a keen interest in the campaign. The first town to be invaded Monday will be Charlotte, N. C., where a council of war will be held.

Barber Expires at Home in Carthage of Double Pneumonia

(By United Press.)

William Minor, Jr., age thirty years, died yesterday at his home in Carthage of double pneumonia after a short illness. He was a barber by trade and a few years ago was employed in the Norris and Flint shop here. He is survived by the widow; his parents, Mr. and Mrs. William Minor, Sr., of Carthage, and three sisters, Mrs. Jap Parrish and Mrs. Tom Silers of Carthage and Mrs. Tom Bradbourn of Knightstown. The funeral will be held at the Fletcher M. E. church in Carthage Friday afternoon at two o'clock and burial will take place in the Carthage cemetery.

URNS TO MOVIE HOUSE

(By United Press.)

London, April 12.—Spring has come to England, and the young man's fancy, whether he wears khaki or not, is turning, after its annual custom, to thoughts of love.

There's a certain movie house out in Golden's Green that is daily becoming more popular. Downstairs it's just an ordinary cinema, but up in the balcony the kind genie who looks after boys and girls in the Springtime has arranged things differently.

There are no single seats in the gallery. They're all built double; i. e., with just room for two in each seat. The company is mixed, generally pretty closely. And it costs sixpence extra to sit in the back row.

AN OMEN OF WAR.

Whittier, Calif., April 12.—It is recalled here today that Louis Fordenanza on Feb. 1, declared that when a coal black pigeon perched on his barn it would be an omen of war. He says it came and foretold the war in 1914 and again when Italy plunged in in 1915. He says the bird has again appeared recently.

Prof. Masters lectured to the high school this morning in the Graham Annex auditorium on "Western

Display of Spring Wash Fabrics

Every woman will be delighted to view this showing, for what woman is there who is not now thinking of wash frocks, for the Spring and Summer days are a'coming?

And can you remember ever having seen such wonderfully colored materials as are to be found for this season? Another surprising thing is that these pretty wash materials are marked at EXTREMELY MODERATE COSTS. Any number of women have asked to be shown a certain design and then look at our sales person in amazement when the small cost was mentioned. Some went so far as to say, "Why, these look like silk. I expected they would cost double that price."

BEAUTIFUL NEW SUITINGS

In some cases the colorings and patterns are daring in design, but in every case the quality of the materials is so rich that you can almost picture what a wonderfully pretty suit, dress or skirt they will make. You'll find all the popular colors of the season.

SILK PETTICOATS

In colors that will blend with almost any shade dress you will see.

Feather Dusters.

Heaven is man's idea of life after death. The feather duster is a turkey's idea of life after Thanksgiving.

There has always been something pathetic about it to us. Particularly in that bilious and melancholy period after we have given a little thanks and taken too many helpings. We always think:

"Well, the turk is dead and gone; the gobbler, as you might say, gobbled; but his soul and his feathers go marching on." It sort of fills us with sadness.

But the feather duster, like a good many old established institutions, is passing. Patent mops and extra efficient rags of one sort and another are pushing it to the ash can. Dust is being clipped upon the obliterated without warning.

But the duster in its day did yeoman service. Long may it wave.

RUSH FOR POSTMASTER

SOCIETY NEWS

Church Societies, Parties, Weddings, Dances, Literary and Musical Organizations, Sewing Circles, Card Clubs and Many Other Things of Interest to Women.

There will be a formal dance at the Social club next Tuesday night.

The club supper, which was to have been held at the Social Club next Tuesday evening, has been postponed until a later date.

Mrs. H. H. Elliot entertained the Rev. and Mrs. J. T. Aiken, Dr. and Mrs. J. T. Paxton, Mrs. Ryburn and Miss Sadie Williams, last evening, with a splendid six o'clock dinner.

Mrs. Mary L. Neutzelher entertained a number of her friends last evening, with a 500 party at her home in North Morgan street. After the spirited rounds at cards, an elegant salad course was served.

Two tables of bridge were entertained by Mrs. O. M. Dale yesterday afternoon, at her home in North Main street. Spring flowers were used as a decoration for the occasion and light refreshments were served at the conclusion of the afternoon.

A regular business meeting of the B. Y. C. D. class of the First Baptist church was held at the home of Mrs. S. G. Huntington last evening, with twenty members in attendance. Mrs. S. G. Huntington last evening, an interesting and instructive talk to the class and light refreshments were served.

Mrs. William Fitzgerald arranged a pleasant surprise party for Mr. Fitzgerald last evening, yesterday being his fifty-eighth birthday, when she entertained four tables of euchre, Mrs. Katherine Horr and Michael O'Neal winning the honors. Dainty refreshments were served at the close of the evening.

Miss Cora Winship entertained the eighteen members of the Embroidery club yesterday afternoon at her home in East Fifth street. One out-of-town guest, Miss Liza Templeton, of Detroit, was in attendance. After the pleasant afternoon was spent over fancy-work, refreshments were served by the hostess.

The members of the C. W. B. M. of the Plum Creek Christian church met with Mrs. Ed Myers yesterday afternoon with Mrs. J. L. Morris, as leader. A patriotic spirit was shown throughout the entire meeting, flags being used as decorations and "America" was sung in chorus. Light refreshments were served at the close of the meeting.

Twelve members of the Sunshine Embroidery club of Raleigh were delightfully entertained with an all day meeting yesterday, by Mrs. Ed Chambers of East Seventh street. Flags and spring flowers were used in profusion to decorate the rooms. At noon a bounteous pitch-in dinner was served, after which a social time was spent with sewing and fancy work.

Mrs. Ida Robbins entertained with a delightful three course dinner today at her home near Raleigh. Masses of flags adorned the walls of the rooms, and small flags were given the guests as favors. Those enjoying her hospitality were the Misses Zula Jackson, Dossie Knotts, Lela and Lula Ratliff of Connersville, and Miss Staucky of Falmouth.

A number of friends enjoyed a pleasant pitch-in supper last evening at the home of Mrs. Joseph Pugh in West Second street. The guests included Mr. and Mrs. Charles H. Brown, and their guest Miss Blanche Ball of Connersville, Mr. and Mrs. Merrill Ball and family, Mr. and Mrs. I. L. Clifford, Mr. and Mrs. Jesse Poe and daughter Mary Louise, and Mrs. Ernest Mitchell. After the bounteous supper, a social evening was spent.

A six o'clock dinner given by Mr. and Mrs. Clint Bodine last evening, proved to be one of the most pleasant affairs of the kind, during the season. Clusters of sweet peas were used to decorate the different rooms and a large bowl of the same

CREDIT FOR FARM RECRUITS

State Superintendent, in Letter to C. M. George, Makes Suggestion

A letter suggesting that high schools and eighth-grades give full credit to pupils in event they enlist in the army or answer the call of the farm to help produce food, has been received by County Superintendent George from Horace Ellis, state superintendent of public instruction. The matter will not be taken up in Rush county at this time as many of the schools are out for the year and the terms of others are rapidly drawing to a close. The state superintendent also urged that President Wilson's "war message" be read and studied in the schools.

them back home. Again our beautiful Flag floated in peace, even when many foreign nations were desperately struggling for supremacy. We know but one country—America—as a home. We know but one law—that of the constitution of the United States which has been more than generous in its protection to emigrants from every land. We know but one Flag—that of the glorious Stars and Stripes. Now that a new and deadly peril menaces that Flag and our peace and prosperity, and we know that many lives must be sacrificed to defend it and our homes, and having been organized for the purpose of patriotism and to maintain true allegiance to the United States of America and to uphold and honor the Flag and universal liberty and equal rights to all, Therefore be it resolved:

That we pledge anew our allegiance to the Flag for which our heroes fought, and tender our services in any manner, which will be a help to protect that Flag both on land and sea, from the desecration proposed by a foreign enemy.

Daughter of Lucky Baldwin Takes Atlantic City by Storm—In Easter Parade

GOES THERE IN PRIVATE CAR

Also Had Her Private Yacht Sent There by Way of the Panama Canal.

(By United Press.)

Atlantic City, April 12.—Mrs. Clara Baldwin Stocker, daughter of "Lucky" Baldwin of California, is easily the sensation of the season among the 200,000 distinguished society guests of the city who were here for the annual Easter Sunday peacock parade on the Boardwalk.

Judged as a whole, styles run to the more simple designs with a suggestion of the military. Of course there appeared the usual extremes, zebra-like stockings presented to better view by unusually short skirts, freakish hats and other novelties—but for the most part even the most wealthy preferred simple lines, even if the material was gorgeous. Some women carried canes.

Mrs. Stocker arrived at the shore in her private car, "California," and had her private yacht brought here via the Panama Canal. Its name is "California" too. Mrs. Stocker, whose wealth is estimated at \$16,000,000 appeared here wearing her \$500,000 set of diamonds.

Among the most prominent guests here yet are: Mary Roberts Rhinehart, Mrs. Alice Vanderbilt, Mr. and Mrs. Stephen B. Elkins, Mrs. Clara Baldwin Stocker, Cyrus H. K. Curtis, Edwin Warfield, ex-governor of Maryland; J. Howard McFadden, Mr. and Mrs. L. E. Swift, Mr. and Mrs. Arthur B. Twombly, J. M. Norcross, Montreal; Mr. and Mrs. H. F. Du Pont, Mrs. A. V. Benson, Albany, Mr. and Mrs. F. G. Adams, Toronto; Former Senator John C. Spooner, New York; Mr. and Mrs. W. Wallace Jones, Toronto; George W. Dunham, Detroit; Miss E. HERE'S ONE LONG DISTANCE RECORD HELD BY LANSING.

Washington, April 12.—Secretary of State Lansing holds the world's long distance ambidexterity record. That is, he claims it. But secretary Baker claims it, too. The evidence is here submitted for public decision.

Secretary Lansing gave an exhibition of handling diplomatic correspondence with one hand dashing off enticing profiles of charming Gibson girls with the other, smoking a pipe the while. Secretary Baker signed army officers' commissions with one hand, handed them to a messenger with the other, listened to his secretary read the day's accumulation of mail and dictated replies, all at the same time, smoking a pipe the while. The race is neck and neck.

PENNSYLVANIA LINES

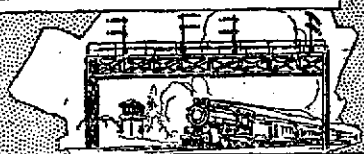

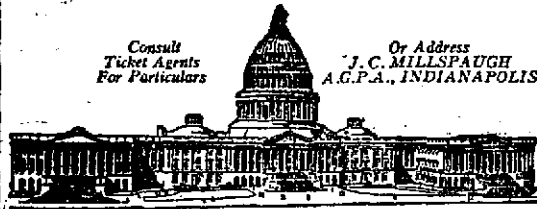

TRAVEL Service is more than good intentions. It is accurate knowledge of how to make persons experience the greatest comfort and convenience while traveling. It combines the highest skill in railroading and the best knowledge of human nature.

Pennsylvania Service is famous—the development of half a century of broad experience.

It is Organized Service. Travelers realize it whenever—wherever—they take Pennsylvania trains.

Tickets to New York, Philadelphia and the East over PENNSYLVANIA LINES will, on request, be routed to permit liberal stopover at the National Capital, also at Pittsburgh, Harrisburg, Baltimore, and other points, without extra cost.

BULL MOOSERS WANT LIBERALS

In Making Arrangements For Next Campaign They Seek This Element of all Parties.

GATHERING AT ST. LOUIS

Will Declare For Nation Wide Prohibition and Universal Military Training.

(By United Press.)

St. Louis, April 12.—National Progressive Party leaders gathered here today to unite under the Moose banner the liberal elements of all political parties to organize a party and a campaign for 1920.

Neither Theodore Roosevelt nor George W. Perkins was invited. Albert D. Norton, who has been a member of nearly all parties and an ardent Moose since 1912, is the leading spirit of the convention.

The plan is to weld the liberal elements of the Democratic, Republican, Socialist, Labor, Prohibition and Women's parties in a National Liberal Party.

Among those interested in the party are Matthew Hale of Boston, formerly a member of the Moose National committee; J. A. H. Hopkins of New Jersey, John M. Parker of Louisiana, and others. It is hoped Bainbridge Colby, Victor Murdock, and other middle western leaders will take an active part in the convention.

Norton and other leaders said today the "Solid South" would yield only to a third party that embraced the ideals of all parties now in the field.

Permanent working plans for the future will be formulated and it was learned that nationwide prohibition and a declaration for universal military training will be added to the platform of 1912, which it is expected will be endorsed.

A committee of the Socialist party which has been in session here for nearly a week will meet with the executive committee of the Bull Moosers.

RELICS WILL BE SOLD AT AUCTION

Prized Heirlooms of Descendants of Washington Will go Under Hammer.

PORTRAITS IN COLLECTION

New York, April 12.—Direct descendants of George and Martha Washington will put some of their most prized heirlooms under the hammer at the Anderson galleries here a week from today.

Included in the collection is an unknown portrait of Washington's mother, which will be held at a minimum bid of \$10,000. There also is an unknown portrait of Washington himself which will be held at a minimum bid of \$5,000. Martha Washington's wedding ring and other personal possessions of the Washington family will be put on the block.

BABY WEIGHED 21 POUNDS.

Minneapolis, Minn., April 12.—Minneapolis boasts the biggest boy baby in the world, in the son of Mr. and Mrs. Frank Mandijak. He weighed 21 pounds at birth, March 20, according to records filed with the city health department today. His parents are Polish. His father is a laborer. He is in every way a normal baby, except for his weight.

LABOR LEADER TO GO BACK TO MINES

John R. Lawson, Implicated in Ludlow Massacre, Starts at Foot of Ladder Again.

HE TURNED DOWN A SOFT JOB

Denver, April 12.—John R. Lawson, the labor leader who was convicted of murder in connection with the Ludlow massacre a while back, today gave up his place as a leader, donned overalls, fixer a miner's lamp to his cap, shouldered his tools and went down into a little mine in the Fredericksburg district to earn his living once more digging coal.

Lawson came up from the ranks. He was a member of the international council of the United Mine Workers. He turned down a soft job with the union when his term expired the other day and went to work.

LIVELY FIGHT PROMISED

D. A. R. May Furnish Excitement in Annual Election.

(By United Press.)

Washington, April 12.—Washington is looking forward to a lovely party when the National Society, Daughters of the American Revolution gather here next Monday for the twenty-sixth annual congress.

Four energetic candidates are in the race to succeed Mrs. William Cumming Story, of New York, as president general. Mrs. George Thacher Guernsey, State regent of Kansas, has a slight lead over her three opponents in pledged votes.

Eleven vice president generals and a full ticket of national officers, are to be voted upon, with candidates galore for each office.

THUMB NAIL SKETCHES OF MEN WHO RUN THE UNITED STATES NAVY

(By United Press.)

Admiral McGowan
Washington, April 12.—The man who supplies the fleet with its vast quantities of "housekeeping" supplies,—food, fuel and other stores,—is Admiral McGowan, Chief of Bureau of Supplies and Accounts.

The Navy names him as the man who has made "a smoothly running military machine, of the great supply system. Under his regime great strides have been made in furnishing the fleet at an instant's notice with all it needs for any task. His is the business side of the navy, which calls for sound business judgment. He was selected for the post because of his "remarkable efficiency" as Fleet Paymaster.

McGowan is one of the best looking men in the Navy. He has the strength and forcefulness of a giant, weighs about 200 solid muscled pounds, has a voice like a bull and is as democratic and companionable as a politician running for office.

Gary—When John Bonham, 66, was refused permission to join the army, he broke down and cried. He is a veteran of the Civil war. When he was finally convinced that there was no chance for him to enlist, he started back home to get some of the younger folks to join.

DON'T SUFFER WITH NEURALGIA

Musterole Gives Delicious Comfort

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on the temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

BUGGIES

We want to call your particular attention to the buggies we are offering to the people of Rush County this season. We invite you to inspect the quality of material that is used in the buggies, also the construction.

¶ We have been in the Buggy Business for a great many years and have given it our best of attention. We believe that a careful examination of our line will convince anyone there is nothing superior on the market.

¶ We handle the ROSS, FEHRING AND MYER, and we can truthfully recommend any one of these buggies. Be sure to see them before you decide what you want.

Serum Station.....

The Swine Breeders Pure Serum Company of Thorntown, Indiana, has established a Serum Station at Rushville for the benefit of their stockholders and also the farmers of this part of the State who want to use a high class serum.

We sell direct to the farmer and guarantee him the best, pure, potent serum and virus that can be obtained anywhere. This serum is strictly trout blood serum, obtained by killing the hog outright and this is the only plant in the country using this method.

The company has arranged to keep serum on hands at Kramer's Cold Storage Plant, and anyone wanting serum can get it any time. We are prepared to answer calls for vaccination at all times and have an office with the Nipp Insurance Company over the Rushville National Bank.

Another Puncture

It always happens at the most maddening time—just when you want to catch a train or keep some important engagement. And usually it isn't really a puncture at all, but a leaky tube.

Now porous rubber (so-called) and leakage around the valves are among the commonest failings of cheap, machine-made tubes. If you are tired of these needless "punctures" equip your car with Kelly-Springfield Tubes. They are made slowly and painstakingly by hand out of real rubber.

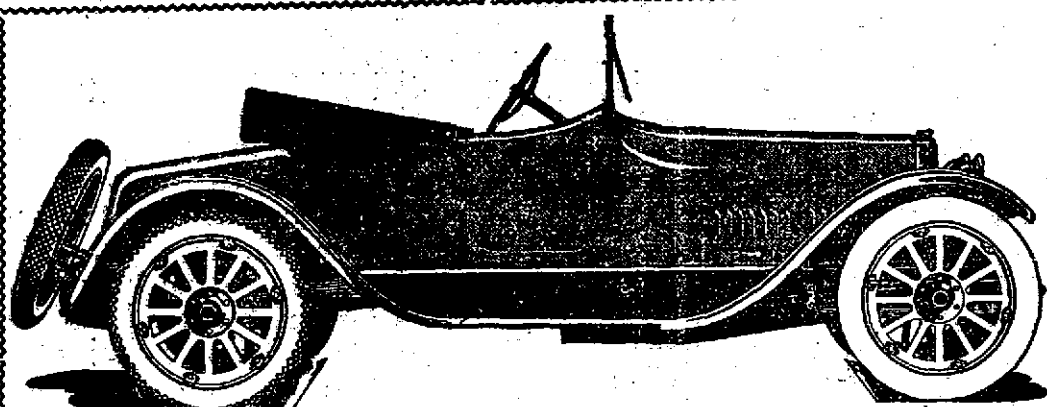

They can be punctured, of course, but they won't leak.

If you use Kelly-Springfield Tubes in Kelly-Springfield hand-made, real rubber tires you will add increased mileage to freedom from needless tube troubles.

Why is the guarantee on BUICK cars more liberal than any other car selling at several hundred dollars more? Why is it that Buick cars have longer life than some others and the upkeep so much less? Why is it that in the last fuel economy contest that was held in New York the Buick won first, second, third and fourth prizes?

Why do you buy an automobile whose engine has proven itself to consume more gasoline than a valve-in-the-head Buick? Why don't you permit us to prove the above fact (if our competitors cannot) and then you will fully realize what is meant by us when we say WHY DON'T YOU BUY A BUICK? Call and see the 1917 models and let us give you a demonstration that is a real test of Buick Power and Strength.

Don't buy more than you need nor less than you need in a motor car. Invest your money carefully and wisely. Remember that excess weight and unnecessary size and power are expensive in every sense of the word, but remember also that if you get a car that is too small and too light you stint yourself on comfort and appearance and real service, in addition to depriving yourself of many features which most buyers of today demand.

INDIANA WOMAN ACTS AS GUIDE

Mrs. Ruby Gaunt Aids English Soldiers in Finding Correct Trains to Their Homes.

STATIONED AT KING'S CROSS

Native of Frankfort Seeing Active Service in London—Married an Englishman.

(U. P. Staff Correspondent.)

London, March 20.—(By Mail)—With a bituminous grunt the bluntnosed engine of the "leave train" jerks to a full stop in King's Cross station. Compartment doors fly open all down the length of the coaches. Tin hats clatter against butts, tin drinking cups jangle on bayonets and steel studded boots make a thunderous sound on the pavement. But, frankly, Tommy is lost.

The ferocious fighting man from the Ancre, Salonica the Mesopotamia is a bewildered boy during his stopover in London on his way home on leave.

And that is why Mrs. Ruby S. Gaunt is standing at the head of the platform, with the smile that came from Frankfort, Indiana. Bundled in a furcoat, with a perfect knowledge of train times at the tip of her tongue and a railroad guide on her arm to convince the doubtful, she is there in good weather and had to tell these kids from the trenches where to go and how to get there.

The brown swarm of men come pounding up the platform, looking for signs. A dozen or so are clustered around a sergeant asking advice, but he is an ex-farmer and does not know any more about London than the Welsh miner beside him. Mrs. Gaunt pushes through the crowd to get at the sergeant like a football player going for the ball.

"Now, sergeant," this in a business like voice tempered by that smile, "where are these boys going?" Sergeant salutes and replies: "Oh, everywhere, Miss Captain."

"Well, get them in groups going the same way, to simplify matters." The Sergeant complies. A dozen want to go to Leeds, others to unpromisable Welsh towns, ten to Lincoln and others are scattered in their preferences.

Take the Leeds men for instance. Mrs. Gaunt says: "Your train goes at 4:20. It's two o'clock now. Here's what you'd better do. Go over to the Lord Roberts' canteen and stow your rifles and kits. Have lunch there. Then you may stay in the reading room, play the phonograph or sing, or you go out to a picture show—one round the corner. But be back here at five minutes to train time at track four."

Every man of them salutes exactly as he would his commanding officer and they go off saying: "Thank you, Maw," or "Mother, you're kind."

A Canadian boy with his face badly shot away seemed mixed up in his direction.

"Where are you bound for, Machine-Gun?" asked the infallible guide from Indiana, catching hold of his lapels.

"No where," said the boy through the bandages of his shattered jaw, "Just wandering around." His eyes narrowed as he, grinning, asked: "Aren't you from Canada? I haven't seen anyone with a smile like yours since I left home."

Mrs. Gaunt is the wife of an Englishman and, therefore, strictly speaking, is an Englishwoman. But America hasn't lost her entirely, because she never will lose what she calls her "Indianaish accent." She regards all soldiers and sailors as boys.

"Tommy or Jack, eighteen to fifty, they're all kids at heart," she said today. "They'll have to grow up again when the war is over. I don't mind being called 'Maw.' It sounds a little familiar, but it is the highest mark of respect coming from them. Some soldiers call me 'General,' which means the same thing—respect."

"Some days as many as 5,000 men have passed through this station. Only one ever became offensive. He was a sailor, too, of all men. But he had a sleep at the canteen and came back to apologize before leaving to catch his train."

Are Still \$17, But The Price of Nearly Everything Else Has Jumped

When the war came everyone in the clothing business thought that wool would go up. The makers of Styleplus Clothes \$17 on account of their extensive advertising were duty bound to keep on supplying the public with "all wool fabrics, expert tailoring, the skill of a great designer," at the known price \$17—provided there was any way on earth to do it.

What happened? These makers bought woollens and linings in tremendous quantity. They kept on ad-

vertising "the price remains the same." Volume doubled, manufacturing costs dropped because of the increased production—new efficiency and new economies came to light through the "necessity of the hour."

Incidentally, the makers as well as ourselves have been content with a smaller profit in order to keep your price the same.

"One day I asked a young Canadian where he was from in Canada. He said Indiana Harbor. 'Pshaw,' I said, 'what's the matter with Indiana?'"

From all the fighters who have had their travelling problems solved by Mrs. Gaunt there would be only one answer. There's nothing the matter with the state that sent the Lady With The Smile to King's Cross Station.

Sour Soil Should Always be Avoided

Gardener Should Put It
Through a Simple Test to
Make Sure Before Any
Planting is Done. Don't be
in Too Big Hurry to Get in
Garden.

Assistant Secretary of Agriculture

Washington, April 12.—When the back yard is ready for spading, the first thing to do is examine the soil—first its chemical condition, then for its planting condition. Soil of the average city back yard may not be very good for the purpose of planting vegetables with a view to cutting the cost of living.

In the Spring as soon as the soil has dried grasp a handful of it and if it will slowly fall apart it is in fit condition to prepare for planting. Never work clay or heavy soil while wet.

Soils which are naturally moist are sour and as a result are not in the best condition for planting.

well to test the soil. A piece of blue litmus paper should be obtained from a drug store. Take a handful of the soil slightly moistened and place the paper on it. The paper will turn red if the soil is sour.

If this condition is shown it can be corrected with a little lime. Cover the ground with a thin coat of air-slaked lime, which can be obtained at little cost. Work this in well.

Clayey or stiff clay loam, where severe freezing has occurred, will be in a much better condition if it has been given a good dressing of manure in the fall.

Don't be too quick to get into the garden work. Some of the overzealous seize the first warm spell as the opportunity and work heavy clay soil before it is dry. They waste energy and do harm to the soil, from which it will not recover in a long time.

Timeliness is a big item in gardening and the thing to do it to have everything ready when the right time comes. Fresh vegetables are very desirable and those from the back yard garden are not subjected to exposure and transportation. Then, too, home-grown products are free from infection.

Another point is that many garden products lose flavor between the time they leave the farm and reach the city table. This is avoided in the home-grown garden. It is not desirable to start things before danger of late frosts is over.

COST OF WAR THUS FAR IS STAGGERING

Total Debt of England Close to
Nineteen Billion and Germany
Sixteen Billion.

AND THE END NOT IN SIGHT

Teutons Have About Ten Million
Men Under Arms While Eng-
land Has Half as Many.

BY GEORGE MARTIN
(U. P. Staff Correspondent.)

New York, April 12.—The end of the British fiscal year and the closing of subscriptions to the new German war loan fell on the same date, today, bringing into the light the staggering totals of cash spent on the war thus far by these two belligerents.

England has spent more than Germany, her total to date being to start it "Drive" on Dixie.

England estimates she is spending approximately \$27,307,700 a day in her fight to whip Germany.

Germany has spent \$18,750,000,000 in her attempt to whip England. This includes the 4 million dollars sought in the new German loan, subscriptions for which closed today.

It was last December that the British Councillor of the Exchequer asked for the latest \$1,048,000,000. At the same time the call went out for a million more men of all ranks. This million men forms the total number of British soldiers

to 5 million. Germany has approximately 10 million men under arms and in training.

England estimates that she has 3,219,000 women in war service and other occupations. The British casualties daily in killed, wounded and missing are estimated at 38,000. Casualties for all belligerents in kill, wounded and missing since the beginning of the war to date are estimated at approximately 23,000,000 men. Of these casualties Germany has suffered slightly more than 4 million, England slightly more than 2 million, France about 2 million and a half.

It is estimated that England's interest on her present war debt for one year is well over \$200,000,000. Germany and France face deficits in proportion to this. For months Germany and England have been mobilizing hundreds of thousands of women to work either directly behind the fighting lines, elsewhere along the fronts or at home in what is known as civil war service. The voluntary period of enlistment for this service expires in Germany today and tomorrow compulsory service will be inaugurated.
